Required Communications
During Completion Phase of the Audit Engagement

Professional auditing standards “The Auditor’s Communication to Those Charged With Governance” issued by the AICPA require us to communicate the following matters to those individuals responsible for the oversight of the strategic direction of the Organization and obligations related to the accountability of the Organization, including the financial reporting process.

See Attached Letter
June XX, 2020

To the Board of Directors and Management
LitWorld International, Inc.
New York, New York

We have audited the financial statements of LitWorld International, Inc. (“Organization”) for the year ended December 31, 2019, and we will issue our report thereon dated June XX, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated December 10, 2019. Professional standards also require that we communicate to you the following information related to our audit.

**Significant Audit Matters**

**Qualitative Aspects of Accounting Practices**

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Organization are described in Note 2 to the financial statements. As described in Note 2, the Organization adopted Financial Accounting Standards Board Accounting Standards Update, *Revenue from Contracts with Customers*, and *Not-For-Profit Entities: Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*, in 2019. Accordingly the accounting change has been modified retrospectively to the prior period presented as if the policy has always been used.

We noted no transactions entered into by the Organization during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management’s knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The financial statement disclosures are neutral, consistent, and clear.

**Difficulties Encountered in Performing the Audit**

We encountered no significant difficulties in dealing with management in performing and completing our audit.

**Corrected and Uncorrected Misstatements**

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements.
In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

**Disagreements with Management**

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors’ report. We are pleased to report that no such disagreements arose during the course of our audit.

**Management Representations**

We have requested certain representations from management that are included in the management representation letter dated **June XX, 2020**.

**Management Consultations with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the Organization’s financial statements or a determination of the type of auditors’ opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

**Other Audit Findings or Issues**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Organization’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

**Other Matters**

This information is intended solely for the use of the Board of Directors and Management of LitWorld International, Inc. and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

[DRAFT]
