bcWORKSHOP is...

... a Dallas based nonprofit community design center seeking to improve the livability and viability of communities through the practice of thoughtful design and making.

We enrich the lives of citizens by bringing design thinking to areas of our city where resources are most scarce.

To do so, bcWORKSHOP recognizes that it must first understand the social, economic, and environmental issues facing a community before beginning work.
PROJECT HIGHLIGHT: 5750DALLAS.ORG

5750Dallas, honoring MLK Jr. Day, were installations placed around Dallas illustrating popular choices made daily in relationship to the needs of our city’s most vulnerable population.

PROJECT HIGHLIGHT:
CONGO GREEN STREET

In partnership with the City of Dallas, bcWORKSHOP is piloting a “green street” design that transforms Congo’s 20-foot right-of-way into a pedestrian-friendly environment with an integrated stormwater management system.
