

**Todd and Maria Luke**  
**Outreach Global Worker**  
*Campeche, Mexico*

**ABOUT OUR PARTNERS**

Todd and Maria Luke's Gospel-driven outreach to build cisterns in Mexico gives families, many of whom are indigenous Ch'ols suffering from poor health due in part to lack of clean water, access to an abundant supply of rainwater that makes a family healthier. Ch'ol Presbyterian laymen organize families to work together to build family-owned cisterns that collect rainfall. During the process, our Mexican partners teach useful construction skills, demonstrate the value of partnership, pray together, and share the Good News in a casual and natural manner. Generally, American partners work with our Mexican partners to lighten the physical load. Due to the pandemic, we are not able to send American mission groups to build cisterns this year, but generous financial support from the American church and family partners is helping build up to 40 cisterns this year. We hope to resume sending mission groups in 2022.

**THE IMPACT**

Through this project, hundreds of families have easy access to millions of gallons of rainwater and in the process, the Gospel is shared. We pray the Holy Spirit will empower the hearts of all involved to be assured of the grace of Jesus Christ.

**THE OPPORTUNITY**

The Outreach Foundation is seeking gifts to support the mission and ministry of Todd Luke. All gifts of any size are welcomed to help with the cost of building cisterns.
