Caring for your furniture:

Your furniture was sourced from old-growth reclaimed wood that was harvested from local midwestern barn. Over the years it has gained its unique texture which makes your table one of a kind!

WE finished your furniture with Monocoat, a natural, plant based oil finish that is 100% VOC-FREE and water resistant. DO NOT place any hot or wet drinks on your table for 3 weeks to ensure the table is 100% cured. We recommend not leaving any drinks for a long period of time on your table without a coaster even after the table is cured. For every day cleaning you can use a dry cloth or a duster. A well wrung dampen cloth can be used to clean spills and spots. The legs can be cleaned in the same manner with a duster or dampen cloth.

Questions & Feedback:

Not only do WE want to provide sustainably unique furniture, WE also want to provide excellent customer service. If you have any questions or feedback do not hesitate to e-mail us at info@wwmake.com.

WE are always looking to grow our company so WE greatly appreciate your referrals! For each referral(contingent on purchase), receive a *10% discount on your next order*.
