Subject: incalculable  
potential

Soooo... he sent you to me,  
did he?

Well, let's see if you've  
got the right stuff then,  
yea?

The snake has what you are  
looking for.

## #B-002: Incalculable - Happiness

From: дптішөпу  
To: Me  
Subject: looking for  
happiness?

Well, you're definitely not  
going to find it here.

hehehehe :p

## #B-003: Incalculable - Mind

From: дптішөпу  
To: Me  
Subject: LIZARD PEOPLEEEE!  
You are getting... colder.

Well, not really. You are  
actually moving in the right  
direction.

I just thought it was funny,  
cuz reptiles are cold  
blooded, y'know?

lol. nm. keep searching.

## #B-004: Incalculable - Soul

From: дптішєny  
To: Me  
Subject: upgrades!

humans perception is pretty  
limited.

there are plenty of things  
you can't see (at least  
without help, lol)

that doesn't mean they don't  
exist though...

the thing you are looking  
for is hidden from view

## #B-005: Incalculable - Potential

From: дптішєny  
To: Me  
Subject: zero potential

unlock your potential

but not here... :p

Subject: basebasebasebase

well... i coooouuld tell you  
what to do.

but, it's way more fun to  
see how long it takes you to  
figure it out for yourself!

i'll give you 1 hint:

decoding the message is not  
enough, you still need to  
understand what it *\*is\**

in order to get to our  
destination, sometimes we  
have to work in reverse.

help her find her home...

## #C-001: Alchimia - Index

From: EL13  
To: Me  
Subject: hidden in plain sight

Well done! Antimony tells me you aren't a total dummy, high praise coming from her.

If you are ready, let's get started...

Just know, appearances can sometimes be deceiving.

If you want to survive in this world, you'll have to learn to look beneath the surface.

Always read between the lines, pore over every minute detail.

Try to find meaning where others see none...

## #C-002: Alchimia - Alchimia

From: EL13  
To: Me  
Subject: alchemy?

Intriguing... let's bookmark this one, just in case.

I've seen circles like this before, each one is slightly different though.

Black, White, Yellow, Red...

This definitely strikes me as alchemical in nature.

There is definitely something hidden here. We just have to figure out what it is and how to find it.

Alchemy is not derived from chaos, there is bound to be an order to things here.

## #C-003: Alchimia - Primus

From: EL13  
To: Me

**Subject:** dig deeper

Obviously there is something here that we weren't meant to read...

Either that, or this is just some thinly veiled attempt at misdirection.

Remember what I said before, about looking beneath the surface?

# #C-004: Alchimia - Solis

**From:** EL13  
**To:** Me  
**Subject:** what is the serpent?

There is no way...

I hope that's not what I think it is!

I think I may have an idea what they are up to... but you're not going to like it.

We need to inspect that file to be sure, but it's bound to be encrypted. There has got to be a key hidden nearby.

Don't take anything at face value. Many things can be represented in more than one way.

# #C-005: Alchimia - Septem

**From:** EL13  
**To:** Me  
**Subject:** it can't be six

Septem... that's clever.

I don't know about you, but I see six here.

Perhaps, there is some hidden information, inside the hidden information. :)

## #C-006: Alchimia - Antimony

From: EL13  
To: Me  
Subject: poison for  
vitality?

Hmmm...

These are instructions for  
the treatment of various  
ailments by applying the Oil  
of Antimony.

I am doubtful that any of  
these are really the true  
purpose of the oil.

There does appear to be a  
pattern here, however...  
we've seen some of these  
colors elsewhere.

## #C-007: Alchimia - Opus

From: EL13  
To: Me  
Subject: magnum opus

Black... opus, the magnum  
opus?

There is definitely  
something else here. The  
colors are obviously  
important, but not on their  
own.

They must be a code. A  
placeholder for the real  
message, perhaps?

## #C-008: Alchimia - Unclean

From: EL13  
To: Me  
Subject: the power of gold

Well, this video isn't what  
I would call weird or

mysterious. Looks like it's just a clip about modern chemistry?

It's definitely here for a reason, I certainly don't think we can overlook the origins of these concepts. Metals into gold...

A lot of alchemical 'theory' has its roots in ancient mythologies. Norse...as we've seen. Egyptian? Maybe?

Let's keep working our way down...

# #C-009: Alchimia - Osiris

From: EL13  
To: Me  
Subject: osiris and egyptians!?

Mentin of Osiris, Egypt, a Fiery Serpent... this is certainly getting strange.

Perhaps we need to rethink our involvement in this endeavor, before it's too late to turn back.

Well... it was just a suggestion. You know I have your back if you want to keep at this.

Just... let's try to be careful, you know?

# #C-010: Alchimia - Fiery Serpent

From: EL13  
To: Me  
Subject: red serpent revealed?

Maybe this is a represenation of the Pymander?

It looks quite a bit like a caduceus.

You know, that symbol you

see at the hospital all the time?

Wait, what is that text embedded in the bottom of the image? It doesn't look correct.

# #C-011: Alchimia - Pymander & The Splendor Solis

From: EL13  
To: Me  
Subject: alchemical secrets

Whoa! It is THE alchemical manual, The Splendor Solis.

The elements, the colors, symbols, everything... it was all to get to... this?

This all seems a bit bizzare though. Why go through the trouble of obscuring a bunch of seemingly random information.

A trail of breadcrumbs, puzzles, and clues...

Just to tuck away a copy of a book on a website?

There has GOT to be something we are missing here. All of this was obviously set up for someone else.

Let's check out the file at least, maybe we'll be able to figure something out.
