

# Essentials of Ophthalmic Retinal Imaging

March 10, 2018

8:00Am–5:00Pm

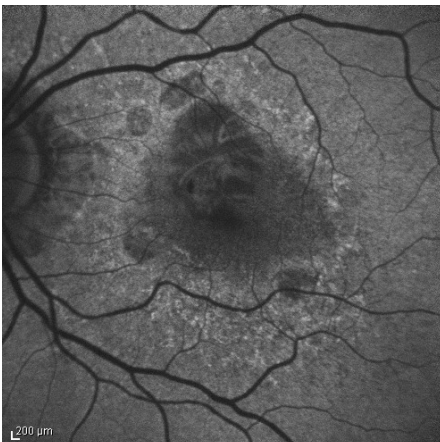

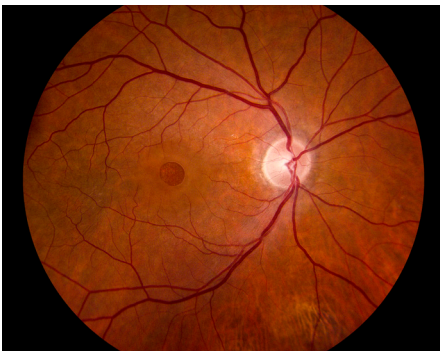

World Forestry Center

Portland, Oregon

## Featured Speakers:

Denice Barsness, CRA, COMT, CDOS, ROUB *San Francisco, CA*

Mark Maio, FOPS *Atlanta, GA*

**Essentials of Retinal Ophthalmic Imaging** provides ophthalmic technicians with the foundation necessary to perform fundus photography, fluorescein angiography and OCT *and* an understanding of the principles behind the technology. With a grounding in ophthalmic anatomy, physiology, pharmacology and disease processes, the ophthalmic imager not only learns how to image the eye but also understands what it shows and why it is important. Our goal is to improve the skills of individuals performing ophthalmic imaging so they can capture the best images possible, thus enhancing their crucial role in the treatment and prognosis of patients.

### Presentations:

- Anatomy and Physiology of the Eye for the Ophthalmic Imager
- Pharmacology for Ophthalmic Imaging
- Patient Management/ Operator Safety
- Photography Principles for Ophthalmic Imaging
- Fundamentals of Fundus Photography
- Angiography, ICG and FAF Principles
- OCT Principles and Primer
- Descriptive Interpretation for FA and OCT

**Pending Approval for  
7.50 JCAHPO 1:1 CEC & 7.50 1:1 OPS CEC**

## Registration Information

Registration Fee: \$249

Online registration at [www.EyeTeachU.com](http://www.EyeTeachU.com).

(Select the "Registration" tab.)

No refunds after March 1, 2018.
