

FOOTSCRAY COMMUNITY ARTS – 12 NOVEMBER 2022

*Between us all things are connected  
There is everything, always, forever, now  
atoms, energy, connection, love  
Susie, will you marry me?  
Between us is an ocean of energy.  
A storm of sound.  
But focus, it's all something to love  
there's no space between us, a gift, to merge  
Separation is ultimately an illusion  
There is no distance  
Oceans and eons  
Us between the you and me Abound in time and space  
Light does not argue it just splits into rainbows  
Let grace carry you to higher ground.  
Between us is an energy that's impossible  
There is an eternity of molecules, atoms, energy  
Between us it's electric!  
A glimpse, a pause, a flicker of light, eternity  
There is an immensity of stars between you and I  
Between us is so much more than words can describe  
time creeps, expands, soaks, absorbs, dissolves  
Embrace, love, cherish, hold  
the\_space\_between  
crackling like lightning, the energy between us  
It is all connection, all part of the one cosmos  
Between us we can make this work, heal the planet  
We have all we need, all we've ever needed  
Enjoy the pause, embrace the spaces, breath  
The spaces between is where the magic lies  
What wonder! Between us we have everything*

*There will always be love  
In the spaces between my heart aches  
Between us it could have been magic  
We are so much stronger than you know  
Between us is a bond that will never be broken  
In the space between us are the things unsaid  
I will never allow a distance to form like I did  
There is sadness where our friendship used to be  
Time dissolves, a billion shards of light  
cracks appeared, widened, the distance too great  
Between all that there is and all that never was  
Everything I once grasped has slipped away  
Things used to be so easy, I wish we could go back  
Does anything exist between us?  
Things are complicated, but that's OK  
There are shared experiences I treasure  
Between us is something beautiful  
Between us there is much, much more to explore  
All at once, everything, a moment, infinity  
Between us lies the path for reconciliation  
Let's work together to create a better future  
I have faith that this will be possible  
Between us we could move the world  
We are all connected, all neighbours, all family  
Borders are arbitrary, we are all one  
Between us may the streets be paved with gold  
As a community we are strong, stick together  
A hope, a prayer, good will to make things better  
Between us so much is shared  
Anything is possible  
When I'm with you everything else melts away  
like dusk and dawn, you defy categorisation*

*A chance encounter that changed everything, bliss  
Between us lies more wonder than is imaginable  
So many wonderful memories, I miss you dearly  
There is a vastness, solitude, please return  
the conversation will continue  
Between all things are connections, energy  
Between us is a lifetime of shared joy  
There's a tension between us that I love!  
Between here and now, there and gone, us  
the silence stretches forever  
There is more between us than we might believe  
Between us is an ocean  
things are fluid, generous, uncomplicated  
We have everything we need, between you and I, us  
Community is everything, embrace your neighbours  
Between us is love, love, love  
There for you always, between thick and thin xxx  
What was once between us melted in the air  
silence grew in the spaces between  
I let pride get in the way, I'm sorry  
there are differences that seem insurmountable  
We can rebuild, all that is between us  
We're not so different, you and I, to the stars  
4EVA lies in the spaces between us, AJ + CM xx  
whispers in the dark, a message to the night  
Into the darkness we leap, together in our bliss  
Yes, yes, yes, YES!  
To the stars! Between us and eternity*

## THE SUBSTATION – 26 NOVEMBER 2022

*Between us we have it all  
there are infinite possibilities  
Infinite between my own thoughts, and you and me  
there is space, there is love, there is connection  
When I look in your eyes I can see paradise  
It's never said. It is always there. Leave it be  
If I only had the guts for this torch lit romance  
between us, lies the unconscious bias of ableism  
Protect me please. So I may survive my calling. Ro  
I love you. Keep going.  
There is more love between us than can be measured  
a whisper that grows into a roar, our time is now  
My son, there was a cord that tied you to me  
May your heart stay with mine. I love you  
Sheesh hit the gritty  
Justice for Cassius  
strength and courage  
Forgive and Forget  
a fleeting moment, a flash of light, gone  
The person you once were is gone, come back to us  
such little space yet an endless chasm of fear  
I'm scared.  
Always believe that someone is there to listen.  
To those in need, you are not alone, we care  
Re-establish, reconnect, come back stronger  
I think of you often  
ad astra abyssosque  
To the stars and the abyss  
Love and gratitude are the highest of vibrations  
Perhaps my wish will come true*
