

# GLASSES!

a board book

**Glasses:** a board book for babies and toddlers who wear glasses.

**Glasses** will feature photos of young children in glasses, and will have a simple rhyming text:

*Some glasses are red,  
Some glasses are blue.*

*I think your glasses look great on you!*

## The Story Behind the Book

When my daughter first got glasses at a year old, I looked for books for toddlers who needed glasses. I found very little. There are some great books out there for kids in glasses, but most involve situations that babies and young toddlers just aren't likely to encounter, like being at school, or having kids tease you. I really want to make a book that is simple and positive, that helps the youngest kids in glasses feel less alone.

## The Kickstarter Campaign

I'm running a Kickstarter campaign to raise funds for the book. The campaign runs until November 26, 2013. Funds from the Kickstarter will help cover the costs of a professional photo shoot, the production of the book, and an initial run of 1000 copies. A pledge of \$17 gets you a copy of the book once it's published, and there are other reward tiers above and below that level.

*Support at all levels is very appreciated!*

*Glasses for you,  
Glasses for me.  
I love that your glasses,  
Help you to see!*
