### **Senior User Experience Designer**

*CDK Global (staffed by Vitamin T / Aquent), Seattle, WA  
January 2016 - June 2016*

Collaborated with a cross-functional team of developers, marketing managers and designers to develop new experiences for e-commerce sites in the automotive industry. Using content-agnostic CMS platforms and responsive design, our focus was to create templates, themes, and tools to improve the user experience for car dealerships and car manufacturers.

Responsibilities included building out responsive frameworks, art direction, wire-framing, white-boarding, device testing, and specing w/ asset creation.

### **Freelance Art Director, User Experience Designer**

*Airphrame, San Francisco, CA  
April 2014 - January 2016*

I worked with Airphrame to build the newest version of their consumer-facing website, which was published in 2014. I continue to play a Senior Designer/ Art Director role in the creation of internal project management interfaces for clients and Airphrame employees.

### **Senior Designer / Art Director**

*LiveAreaLabs (staffed by Creative Circle), Seattle, WA  
May 2014 - July 2014, September - December 2014*

Design Lead for rebranding of an e-commerce sports retail client. Joining the team after a new brand and conceptual development was already chosen, I led the art direction and creative expansion across the site, working with Lyons Demandware wireframes and presented milestone reviews with the client.

### **Visual Designer**

*Amazon (staffed by Collabera), Seattle, WA  
December 2013 - February 2014*

Working with multiple merchandizers and Amazon-internal clients for digital advertising & online marketing across Amazon and Jungle.

### **Designer**

*POP (staffed by Creative Circle), Seattle, WA  
July 2013 - September 2013*

Working on multiple big brand vendors on Target.com and its brand platform for digital advertising & online marketing. Work included web page design & layout, revisions & collaboration with client feedback, execution of multiple formats for online advertising, execution of web assets and development-ready files.
