

Thank you for choosing Impact Dance Center for your or your child's dance education! We don't take lightly that you have many choices for your dance training, so we thank you for entrusting your training to our studio and faculty.

Whether you're new to dance or new to our studio, we ask that you enroll in the lowest level possible for the dancer's age so that it may serve as a placement class. The philosophy behind that is there is nowhere to go but up and if you're already in the appropriate class, you don't need to do a schedule change.

Class Placement is carefully evaluated by the professional staff according to physical facility, talent, and ability of the dancer. Placement is continually monitored by teachers. Please note that every dance studio has different curriculum and level placement policies - A 'level 2' doesn't always equate to a 'level 2.' Thank you in advance for respecting our professional faculty's placement decisions; your dancer's best interest is ALWAYS in our best interest.

New Student Placement
