

THE ORIGINAL SUPPORT
SYSTEM THAT GROWS
WITH YOUR PLANTS!

Peacock Garden Supports
grow with your plants,
providing a smart alternative
to sticks, strings, and
cumbersome wire cages.

All the support rings and stakes are
completely interchangeable and are
suitable for a variety of both small
and large plants. Peacock plant
supports can be put in place at any
time of the year without damaging
the plants.

Support Stakes

The support stake is the basis of the plant support. Support stakes are available in Classic, Fiberglass, and Mini (for indoor plants and container gardens). Each stake comes with one coupler (to attach rings, grids, or border edges), and a rounded knob to protect eyes.

Stake Diameter Comparison

Mini-Pinnups
.13" Dia.

Standard Stake
.28" Dia.

Fiberglass Stake
.31" Dia.

Rings, Grids, & Borders

Support rings help hold the plant in place. Along the garden path, plants can be kept back in an attractive manner by using a straight or border edge. For delicate plants it is wise to use a support grid. Select the size and shape of the support ring, grid, or border to best suit a variety of plants.

Veggie Stakes

Handy plant stakes for the vegetable garden. These stakes make it easy to build a frame for peas or a plant spiral to encourage tomatoes to grow upwards. Use connector clips to fix the stakes together and binders to attach the stakes to plants.

Twiggy Supports

Twiggy garden supports are both functional and decorative. They consist of a trunk with six bendable branches. The branches are pliable and can be shaped to bend around the plant as desired. They are easy to use and are suitable for any garden or balcony.

Give your customers the support they need to grow year after year.

With all the Peacock parts and pieces being completely interchangeable to support gardens as they grow, it's best to "tell a story" showcasing the various displays and types of products. Select the Peacock displays best suited for your size of Garden Center (see guide on next page), then replenish the individual products, as necessary, throughout the year.

34-9001 Peacock Classic Support Stakes & Couplers (pg 114)

34-11001 Fiberglass Pinnups & Extensions Display (pg 115)

PGS9096 Peacock Classic Best Seller Display (pg 116)

PGS9009-1 Peacock Classic Best Seller Display (pg 117)

Which Peacock Displays are best for your Garden Center?

Small-Sized Garden Center

In general, we recommend one of the following options to best suit your size and space:

1. C or D and G
2. C, D and G
3. A or B + E or F and G

Medium-Sized Garden Center

In general, we recommend one of the following options to best suit your size and space:

1. C, D and G
2. A or B + E or F and G
3. A or B + E, F and G

Large-Sized Garden Center

In general, we recommend one of the following options to best suit your size and space:

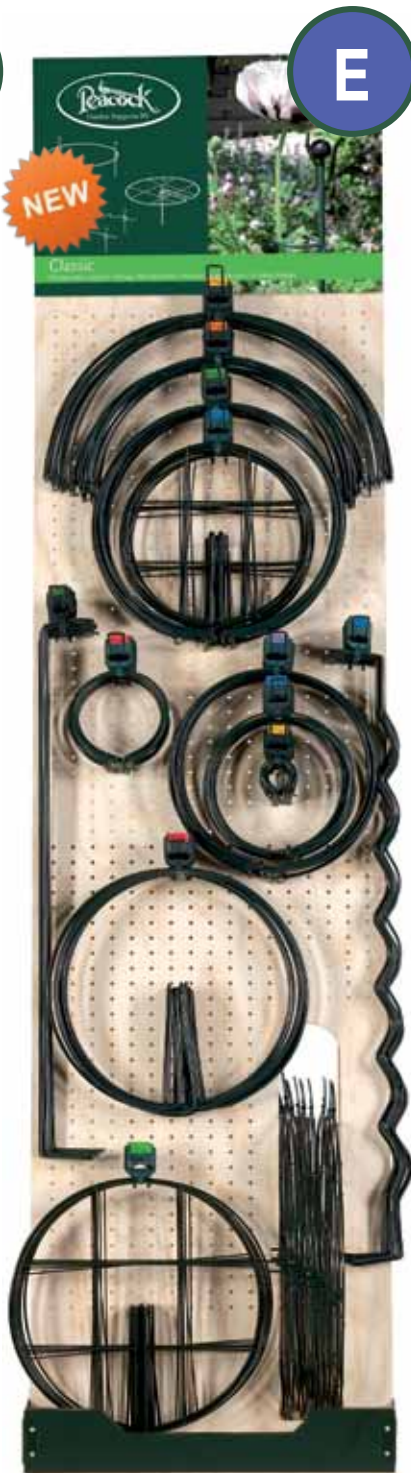

1. A or B + E, F and G
2. A, B, E, F and G

If you have multiple locations, order the same option for each. Tip: use C or D by your check-out for last-second buys or outside with your perennials.

0 702633 092864

Border Edges

- Along the garden path, plants can be kept back in an attractive manner by using a straight or scalloped border

PGS9261 32" (81cm) Straight

0 702633 092611

PGS9273 40" (100cm) Scalloped

0 702633 092734

Umbrella Support Grid

- Gives extra support to plants like roses
- Must be used with a 6-hole coupler (PGS9408)
- Install the grid when the roses have already been pruned for the upcoming season

PGS9296 24" (60cm) Umbrella Grid

0 702633 092963

PGS9291 12" (30cm) Round Center

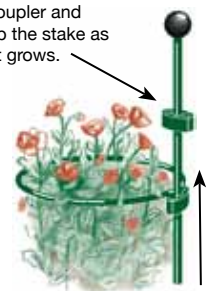

0 702633 092918

PGS9292 16" (40cm) Round Center

0 702633 092925

Slide the coupler and support grid up the stake as the plant grows.

PEACOCK COMPONENTS

Rectangle Support Grid

- For delicate plants, it is wise to use a support grid.
- Place the grid over the plant at the beginning of the season and the plant will grow through
- Works great for Peonies

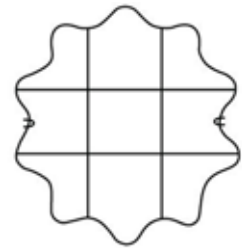

PGS9283 36" (91cm) Rectangle

Scalloped Support Ring

- For support of top-heavy plants so they do not flop
- The scalloped design allows plants, like peonies, to be supported and grow more naturally

PGS9219 13" (32cm) Scalloped

Scalloped Support Grid

- For support of top-heavy plants so they do not flop
- Place the grid over the plant at the beginning of the season and the plant will grow through

PGS9293 17" (43cm) Scalloped Grid

PGS9220 19" (48cm) Scalloped

PGS9288 21" (54cm) Scalloped Grid

Standard Coupler

- A unique attachment for securing the support rings, grids, and borders to the stakes
- The couplers allow the ring to be moved up and down, so the 'support' grows with the plant
- Use multiple couplers on one stake to support more plants

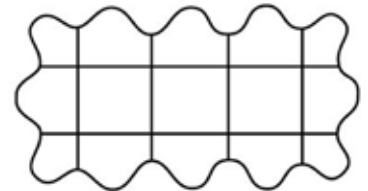

PGS9400 Standard Coupler (4-Pk)

1/2 Circle Scalloped Support

- For support of top-heavy plants so they do not flop
- Use two stakes for support
- Use a Twister coupler to use more than one on same stakes

PGS9225 21" (54cm) 1/2 Scalloped

Rectangular Scalloped Support

- For support of top-heavy plants so they do not flop
- Place the grid over the plant at the beginning of the season and the plant will grow through

PGS9287 26" (66cm) Rectangle

Twister Coupler

- Add extra rings after the plant has already started to grow
- Easily clicks/twists on to the side of the stake, so the support can stay in the ground

PGS9407 Twister Coupler (4-Pk)

6-Hole Coupler

- Use the 6-Hole coupler to create a full circle of rings with only one stake!
- Use with the Umbrella Grid (PGS9296)

PGS9408 6-Hole Coupler (2-Pk)

PGS9741 Peacock Info (30/Pack)

Fiberglass Support Strap

- Useful in creating borders
- Clip onto two support stakes to create an instant border
- 40" and 50" straps are flexible and can also be used to create a 1/2 circle

34-11200 20" (50cm) Strap

34-11201 30" (75cm) Strap

34-11202 40" (100cm) Strap

34-11203 50" (125cm) Strap

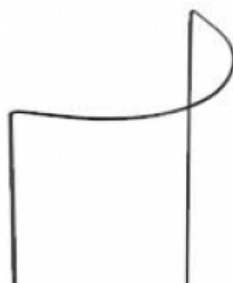

Flexibility to create a 1/2 Circle, 1/2 Ellipse, or Straight Border with 40" and 50" Fiberglass Straps

Fiberglass Straps allow you to create instant borders. The 40" and 50" Straps are flexible and allow you to create 1/2 circles or 1/2 ellipses of any size.

TIP: Use three Fiberglass Stakes, nine Fiberglass Straps, and the Twister couplers to create an easy and flexible trellis system/triangle to replace cumbersome wire cages.

Classic & Scalloped Plant Cradles

- Simply place in the ground to provide maximum support - 14" Width
- One-piece design made from sturdy 0.24" galvanized steel with dark-green coating
- Choose from either the 1/2 Circle or the Scalloped 1/2 Circle Bush Support

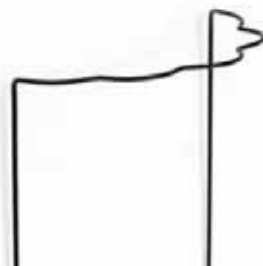

PGS8130 14" (35cm) 1/2 Circle Cradle

PGS8131 28" (70cm) 1/2 Circle Cradle

PGS8132 40" (100cm) 1/2 Circle Cradle

PGS8240 14" (35cm) Scalloped Cradle

PGS8241 28" (70cm) Scalloped Cradle

PGS8242 40" (100cm) Scalloped Cradle

Fiberglass 14" Stake Pins

- Made with the quality of our longer Fiberglass stakes, these shorter stakes are made especially for supporting the Nameboard toppers
- Use to identify seedlings and plants
- 4-pack; does not include a coupler

34-11451 14" (35cm) Stake Pins

Nameboard Toppers

- Identify your plants with these easy to use name markers
- 4 nameboards and 10 replaceable cards
- Use with 14" Stake Pins or any Classic or Fiberglass Stake

34-11450 Nameboard Toppers

Deco Solar Light

- Has solar energy cells and LED battery
- A fairy-tale atmosphere in the garden!
- 4.5" x 2.5"

PGS10502 Deco Solar Light

2.3"W x 4.3"H

34-10671 Bird Feeding Topper

PEACOCK COMPONENTS

Veggie Stakes

- These plant stakes are a durable alternative to bamboo sticks
- Made of plastic coated metal
- Use the connector clips to create a frame or the binders to secure plants to stakes

PEACOCK GARDEN SUPPORTS

34-14003 Veggie Stakes Display
13.5"W x 20"D x 80"H

Peacock Veggie Stakes Display

- Veggie Stakes are made of a plastic-coated steel tube
- Extremely durable alternative to bamboo or cane stakes
- These provide a straight-forward means to build all the necessary frames for vegetable gardens when used in conjunction with the connectors
- The Spiral stake is ideal to grow cucumbers and tomatoes. Just place the Spiral stake over the seedlings and watch the plants grow up along the spiral!
- With the connection clips, you can simply connect various Spiral stakes together to create a 'wigwam' frame
- UV-Resistant!

Twiggy Garden Display

PGS4080 Twiggy Display
20"W x 12"D x 72"H

- Falling plants, a hanging stem or heavy flowerbuds. With Twiggy Garden, plants will get maximum support
- Twiggy consists of a trunk and 6 branches. The branches are pliable.
- How it works:
 - 1.) Twiggy is positioned in the midst of plants needing support
 - 2.) Branches from the trunk are separated
 - 3.) Branches are bent around the plant to provide assistance where needed
- Twiggy is also decorative. With deco accessories you can create your personal eye-catcher in the style of your garden.
- Twiggy is made of galvanized steel with a coating.
- It will not rust and can be left outside during summer and winter. Twiggy is 60 inches tall and available in either green or rust colors.
