

SCOTT WILLIAMS  
PHOTOGRAPHER

As the biggest day of your life is unfolding and swirling around you, as you begin your new life together surrounded by your closest friends and family, my job is to record in photographs the story of your wedding day.

To photograph the joy, happiness and excitement you feel on your wedding day. And to photograph that nervous anticipation as you get ready in the morning to the outpouring of emotions as you exchange vows and then right through to the wild party late into the night.

As I strive to create a collection of wedding photographs that you, your family and future generations will cherish I believe that every wedding is special and unique and that the pictures should reflect that. There are no cookie cutter pictures or wedding magazine shot lists.

# QUESTIONS?

## **HOW LONG AFTER THE WEDDING UNTIL WE SEE OUR PHOTOGRAPHS?**

The turnaround time for your wedding pictures is roughly 4 weeks after your wedding. You will receive a link to your highlight slideshow and online proofing gallery where you can download the digital files.

## **WHAT HAPPENS IF YOU'RE SICK ON OUR WEDDING DAY?**

I've been photographing weddings for 10 years and I've yet to miss a wedding. Having said that, life happens and I think it's best to be prepared. If I can't be there to photograph your wedding, I have a network of other photographers who I can call to take my place.

## **ARE YOU AVAILABLE FOR TRAVEL?**

Absolutely! I live in a small town but spend most of the time photographing weddings in Toronto and the rest of Ontario. I'm also available for travel Canada wide (at an additional cost).

## **DO YOU TAKE POSED PICTURES?**

Absolutely! I love family and think the formal family pictures we take on the wedding day will be some of the most important pictures we take. Of course, we'll also get some great portraits of you both and your wedding party.

## **DO YOU EDIT ALL YOUR IMAGES?**

My style lends itself to images that have very clean colours and tones. All images are cropped, colour corrected and ready to print. Selected images are converted into B&W.

The only time I use photoshop is for minor retouching of portraits.

## **HOW MANY PICTURES WILL WE RECEIVE?**

On average, most weddings wind up with approximately 600-700 edited images.

# ABOUT SCOTT

I sometimes joke that I'm a full time stay at home dad and a part time photographer, but that's actually probably pretty accurate. My world revolves around my wife and our 4 kids.

Family is everything to me and I try to show that in my wedding photography. I'm probably one of the few photographers who actually enjoys taking the family formals since I know how important those pictures will be in years to come.

I'm a relative late bloomer to photography. I wasn't the kid who's dad gave him a camera at age 5 or shot for the school newspaper.

But since then I've been making up for lost time; studying at some of the best photography workshops in the world... Foundation Workshop, Mountain Workshop, Magnum Photography, Cliff Mautner and David A. Williams.

Something must have clicked since my images have won numerous awards at Fearless Photographers, ISPWP and the WPJA and I've been published in magazines like Wedding Bells.
