Windy Wind-Chime
Concept

- A wind-chime-like toy, that will hang from the existing log structure. It incorporates elephant features, providing Emily and Ruth with a new friend!
Materials

- Nylon Webbing (for hanging)
- Recycled Propane Tank
- Steel pipe/tube
- Steel sheet metal
Construction

- Steel Tube placed inside of recycled propane tank and hung from an axis point
- Nylon webbing threaded through the two cylinders
- Sheet metal cut to the shape of “elephant” ears
- Ears welded to sides of tank
- Hung from existing log structure
