

LIGHT AHEAD

I made a mess and I got lost
I do my best but I can't stop thinking of you
Don't wanna wish I could go back
Don't wanna wonder what could have been
With you

I'm not starting over yet
I'm not starting over yet
I know there's light ahead
I'm not starting over yet
I'm not starting over yet
I know there's light ahead

I hope there's light ahead

You are nothing like I am
You're every bit of innocent
And I can't let it in again

I'm not starting over yet
I'm not starting over yet
I know there's light ahead
I'm not starting over yet
I'm not starting over yet
I know there's light ahead

I'm not starting over yet
I'm not starting over yet
I know there's light ahead
I'm not starting over yet
I'm not starting over yet
I hope there's light ahead

MORE

I can't sleep
Can't stop thinking of ways to get it all for you
Whatever it is
I want to make your wish come true
I can't wait 'til we wake up wanting nothing new
As long as we're here together
We have enough to last forever

Everybody's gotta draw their own line
But if we don't stop now, we never will
Opportunity is always on the other side
But if we don't stop now, we never will
Every time, whatever we find is never enough
Never enough
More is an assassin of a better life
If we don't stop now, we never will

Just to be with you
Wanting nothing new
Just to be with you
Wanting nothing new
Only you

Everybody's gotta draw their own line
But if we don't stop now, we never will
Opportunity is always on the other side
But if we don't stop now, we never will
Every time, whatever we find is never enough
Never enough
More is an assassin of a better life
If we don't stop now, we never will

Soon this whole world will be ours
Soon we will reach for the stars

Everybody's gotta draw their own line
But if we don't stop now, we never will
Opportunity is always on the other side
But if we don't stop now, we never will
Every time, whatever we find is never enough
Never enough
More is an assassin of a better life
If we don't stop now, we never will

Every time, whatever we find is never enough
Never enough
More is an assassin of a better life

TO SEE YOU

You got me hanging on your every word
And like a child I believed what I heard
Until you said you had to go away
I guess I always thought you'd stay

I'm still standing
I'm not giving in
Because I believe it
My heart is beating for you
All for you

I can't believe you'd leave
Right in the middle of the best days of our lives
Will I ever get to see you again?
I can't believe you'd think
I would be better off without you by my side
Will I ever get to see you again?

Will I ever get to see you?

You hold my heart no matter where you are
So I'll be waiting with the morning stars
To be together like we're meant to be
When you come back, oh you'll see

I'm still standing
I'm not giving in

I can't believe you'd leave
Right in the middle of the best days of our lives
Will I ever get to see you again?
I can't believe you'd think
I would be better off without you by my side
Will I ever get to see you again?

Will I ever get to see you again?
All I want is you

I can't believe you'd leave
Right in the middle of the best days of our lives
Will I ever get to see you again?
I can't believe you'd think
I would be better off without you by my side
Will I ever get to see you again?

All I want is you
Will I ever get to see you again?

GIVE IT TIME

I don't know where to go if I can't stay here
I don't think it should hurt this much, my dear
But this stone cold heart inside my chest
It never lets me lay my weapons down

Give it time
We're gonna be alright

It'll be alright after the night
Just a little longer, we will see in different light
And we'll lay our weapons down
Lay your weapons down

Give it time
We're gonna be alright
Give it time
We're gonna be alright

Not sure I know how it goes from here
But when the sky comes crashing down...

Give it time
We're gonna be alright
Give it time
We're gonna be alright
We'll be alright
Give it time
Give it time
We're gonna be alright
We'll be alright

APOLOGY

We're leaving paradise
Bound by our own design
Two corners cold as ice
Love hides behind the line
I can't believe it's come to this
Caught in a war that no one wins

Please forgive me, I know I was wrong
I'm sorry
I don't wanna fight because there's no enemy
It's just you and me
I'm sorry

I'm feeling paralyzed
Can't stand alone tonight
With you by my side
Love makes it out alive
I can't believe it's come to this
We lost the war and won't give in

Please forgive me, I know I was wrong
I'm sorry
I know, I know, I was wrong
I know, I know, I was wrong
I don't wanna fight because there's no enemy
It's just you and me
I'm sorry
There's no, there's no, there's no enemy
There's no, there's no, there's no enemy

Until you accept the flag I'm flying
It's out of my hands to make this right
And I'm helpless, helpless
We don't belong on the separate side
We've both been wrong and now it's time
To make this right

Please forgive me, I know I was wrong
I'm sorry
I know, I know, I was wrong
I don't wanna fight because there's no enemy
It's just you and me
I'm sorry
There's no, there's no, there's no enemy
There's no, there's no, there's no enemy
Please forgive me
I know I was wrong
I'm sorry
I know, I know, I was wrong
I know, I know, I was wrong
I'm sorry

NEXT TO YOU

You're so far away
I'd do anything to hold
We're gonna be okay

Just a little bit closer
Would be so much better
This distance is killing me
Even a little bit closer
Would be so much better
My world is spinning over and over

I'm over myself
So over myself
Lost until next to you

Next to you
I am home
When next to you

Just hold my heart in your hands
Until I'm breathing again
This world is right where you stand
I'm held in space empty handed

I'm stranded again
Can't stand where I am
Unless I am next to you

Next to you
I am home
When
I belong where you are
I belong where you are
I belong where you are
I belong next to you

Next to you
I am home
When next to you
Next to you
I am home
When next to you

ALL I HEAR IS NOISE

Hold my intention, take it 'til it's gone
Overreaction, show me what's wrong

All I hear is
All I hear is noise
All I hear is
All I hear is noise
All I hear is

Don't make your mission to fix my condition
From a distance it's a beautiful view
Can't you see that you're my favorite distraction
When one cell starts a chain reaction

All I hear is
All I hear is noise
All I hear is
All I hear is noise
All I hear is noise
You expect my full attention when you speak to
me
But all I hear is noise
It's not lack of my affection, it's deficiency
All I hear is noise

All I hear is noise
You expect my full attention when you speak to
me
But all I hear is noise
It's not lack of my affection, it's deficiency

NOW IS

Don't trust your emotions
Don't just let it go
It's easier to take it
Than be the one to break it
Don't trust your emotions
Don't just let it go
It's easier to wait for it
Than always have to pay for it

Take your precious time
Making up your mind
Like an ideal rhyme
That took years to find

Say... say words that really matter
Now... now is the ever after
Now is the ever after

It's easier to see it
After you believe it
Don't trust your emotions
Don't just let it go
It's easier to face it
Than always have to fake it

Take your precious time
Making up your mind
Like an ideal rhyme
That took years to find

Say... say words that really matter
Now... now is the ever after
Don't trust your emotions
Don't just let it go
Don't trust your emotions
Don't just let it go

You can't get it back

Say... say words that really matter
Now... now is the ever after
Don't trust your emotions
Don't just let it go
Don't trust your emotions
Don't just let it go

BEAUTIFUL GIRL IN A WONDERFUL WORLD

The good life won't come easy
It gets harder as you move along
You can't use an excuse when you and I belong
A good love won't come easy
It's worth more than you could own
And we exist not to miss all the wonders that
unfold

Don't miss the best about it
Don't just forget about it
Don't worry sick about it
Because you don't know what the future holds

Tomorrow waits where it belongs
Spend today before it's gone
With a beautiful girl in a wonderful world
A beautiful girl in a wonderful world
Don't let another minute pass
Steal away and make it last
With a beautiful girl in a wonderful world
A beautiful girl in a wonderful world

So wrap sounds all around you
Come together just a little more
And hold fast until the past is an unfamiliar old

Then just forget about it
Don't worry sick about it
Because you don't know what the future holds

Tomorrow waits where it belongs
Spend today before it's gone
With a beautiful girl in a wonderful world
A beautiful girl in a wonderful world
Don't let another minute pass
Steal away and make it last
With a beautiful girl in a wonderful world
A beautiful girl in a wonderful world

Isn't love worth enough?
More than all you're giving up?

Time will tell you after it's through

Tomorrow waits where it belongs
Spend today before it's gone
With a beautiful girl in a wonderful world
A beautiful girl in a wonderful world
Don't let another minute pass
Steal away and make it last
With a beautiful girl in a wonderful world
A beautiful girl in a wonderful world

HELP

You formed my flesh with dust in your hands
And by your breath I walk in the land
Part of your plan
And you're so good, proof is all around me
And oh I should be happy to just be
Here on my own, here on my own

I need help like the ocean needed the sand
Love, like creation needed a plan
I need help
And I need love
I need help like the ocean needed the sand
Love, like creation needed a plan
I need help
And I need love

I could never be what you want me to be
Unless there is a missing part of me
Apart from me

I need help like the ocean needed the sand
Love, like creation needed a plan
I need help
And I need love
I need help like the ocean needed the sand
Love, like creation needed a plan
I need help
And I need love

You're so good
You're so good
You're so good
You know I could not be alone

I need help like the ocean needed the sand
Love, like creation needed a plan
I need help
And I need love
I need help like the ocean needed the sand
Love, like creation needed a plan
I need help
And I need love
