

# CS4NH SUMMIT 2017

Saturday, September 30, 2017, 8:00—3:30  
White Mountains Community College, Berlin, NH

K-12 educators and allies, plan to join us for the second annual CS4NH summit that will bring together NH and national experts, K-12 and higher education teams, business / industry representatives, and policy drivers to share our common vision for K-12 CS in NH.

CS4NH is about expanding K12 access to Computer Science education. Computer Science, the study of the principles and use of computers, includes coding and other critical skills and concepts for 21st century. This event will include workshops for a variety of user levels and will be a great opportunity to learn more about integrating CS.

There is NO COST to participate. Pre-registration is required and space is limited on a first-come, first-serve basis.

## Keynote

Jennifer Wang, Ph.D.  
Computer Science Education  
Outreach Program Manager at  
Google

The keynote will be followed by break-out sessions, lunch, and panel of experts.

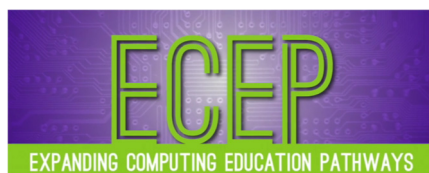

## Organizers

## Partners

## Sponsor

## Teams Encouraged

Educators are encouraged to form strategic district or school team(s). A team may be within a grade group (PK -5, 6-8, 9-12) or span across PK-12. A school team consists of 3-5 school personnel which may include (but is not limited to): teacher, administrator, curriculum coordinator, technology integrator, library/media specialist, etc.

## Location

White Mountains  
Community College  
2020 Riverside Drive  
Berlin, NH 03570

## Other Details

Breakfast refreshments and lunch provided.

Note: We may not be able to meet all special dietary requirements.

## Registration Required

Free to NH educators.  
Pre-registration is required.
