

COACHING WITH ASHLINA

take your life to a new level

What we do with our lives is extremely important, it's what separates us from living our lives to the fullest and just living. So many of us spend our valuable time just wishing that we had the time, money, or the resources to accomplish a particular dream or goal. This valuable time becomes wasted and what we dream of and desire is still left feeling... out of reach. The thing we fail to realize is that it's MUCH easier than we allow ourselves to believe.

Which is why it is my mission to help the fabulous women of the world discover and illuminate their path.

I've spent many years navigating the ins and outs of being an entrepreneur, running a successful brand and building several streams of income. I've worked with multiple business and success coaches, completed development and entrepreneurship programs. I've learned so much and it is my passion to share what I have learned with the world in a way that is fun, inspiring and something everyone can understand.

MY MISSION...

Is to make the world a more beautiful place, one interior at a time. I am passionate about women digging deep into their soul and decorating it beautifully. I'm a firm believer that your home is the basis of your world and through a process I call **Decor Therapy** we can position you to create a home environment that supports you in being your best. I've also created several online programs that have helped thousands of women achieve their personal and professional goals and I would love to help you with your dreams and goals too!
