

# DECOR THERAPY

DE-CLUTTER. ORGANIZE. DECORATE.

LET'S TURN YOUR HOME INTO YOUR SANCTUARY!

Using secrets from Feng Shui, the art of decluttering, along with elements of great design, I will help you create a home that feels in alignment to your best life.

Together, we will design a home and life you love!

## PHASE ONE: De-clutter (60 min Skype session)

We take a look at your room and all the areas that are in need of a major detox. I will show you my process for clearing out clutter, easily & efficiently.

You will learn how to let go, discover what you are holding on to and why, then clean out what is no longer needed in your life.

## PHASE TWO: Organize (60 min Skype session)

We will next create a plan to organize the things that are most important to you and set up your systems for finding everything you need with ease. Everything must have its home.

## PHASE THREE: Decorate (30 min Skype session & follow up email plan)

Once we discover your home style personality, I will help you implement decor to make your home feel happy, cozy, clean and blissful. While pulling everything together so it looks well styled. I will guide you with a color palette plan, to making the right selections and doing what works for you.

Are you ready to get started. . .?
