## TTF CURRICULUM: IATSE TTF SAFETY FIRST! ©

### TTF SAFETY FIRST! CURRICULUM ACKNOWLEDGMENT

This module is distributed in conjunction with a training class provided by the IATSE Entertainment and Exhibition Industries Training Trust ("IATSE Training Trust"). The IATSE is committed to maintaining a safe and healthy working environment. These materials and the related class have been designed to that end.

Receipt of this module and the signature on the course sign in sheet confirms the recipient's agreement to:

- It is the individual attendee's responsibility to adhere to all safety rules and regulations during the IATSE Training Trust class and in applying skills learned in the class and this module.
- The individual attendee shall hold harmless all instructors or contractors involved with this class for any injury or misunderstanding resulting from attending the class.

By receiving these materials and signing the course sign in sheet, the recipient also acknowledges that:

- Complete mastery of this topic may require further training outside of the IATSE Training Trust's class. The training will identify some of the common safety and health issues in our business, the regulations that apply to these hazards and your rights to have the hazards addressed by the employer. This training does not qualify you, as an employee, to fix the safety problems or to declare a workplace either safe or unsafe. That requires the opinion of a qualified professional.
- Completion of this class or review of these materials does not guarantee employment or higher pay.
- Information presented in this class should be used as a general guideline and is not intended as a legal interpretation of any federal, state, or local safety standard.

Although the information contained in this class has been compiled from sources believed to be reliable, the IATSE Training Trust, the local receiving the curriculum, and the instructor make no guarantee nor warranty as to, and assume no responsibility for, the accuracy, sufficiency, or completeness of information provided in this module or related class.

Participation in this training does not relieve employers from any of their on-site training obligations under state or federal OSHA or other regulations.

Receipt of these materials and signature on the course sign-in sheet indicates that the student/instructor has acknowledged, understood and agreed to the above terms.
