Bouquet of roses and calla lilies, \$175, from Flowers to Stone, [stonebly.com](http://stonebly.com)

**top tips**

1. Combine various shades of the same hue—for example, mix fuchsia flowers into your pastel-pink bouquet.
2. Pink is the color of affection. Show your family members and friends how much you care for them by packaging their favors with pretty, rosy paper.
3. The color pink is very versatile. Use pale shades to offset bold color, or have a bright pink take center stage.
