BOMBARDIER  
LEARJET 60

A WAY OF LIFE.

# B

## BOMBARDIER LEARJET 60

The most exclusive aircraft of the Learjet family, its spacious cabin allows even the tallest of passengers the freedom to stand, stretch and travel in complete comfort.

Designed with a short wingspan, the Learjet 60 reaches speeds greater than other comparable jets, whilst the heavy wing loading ensures smooth flying.

Sophisticated in design and technology, the Learjet 60 is perfect for both short and long-haul flights.
