J. Yu Official Bio:

Born in Guangzhou, raised in California, and educated all over the globe, J. Yu’s life and work embody multiculturalism by synthesizing eastern brushwork with western media. Twenty years of practicing traditional Chinese ink and brush techniques, combined with five years immersed in western oils and acrylics, have led to the rice paper-on-canvas pieces she creates today. J’s style balances east and west, traditional and contemporary. The exacting process of using rice paper as a medium on canvas is unconventional in the west and defiant in China - a reflection of her struggle embodying, yet pride in encompassing, both cultures she calls home. Her paintings are home to permanent installations in Princeton University, Roundview Capital, and private collections around the world.

As founder of StudioYU.org, J has also built a virtual space for international artists to collaborate and share their voices through art. In showcasing cross-cultural works, StudioYU serves to intertwine lives, provide continuous exposure to the ever-evolving world, and rally greater support for the progress of arts education.
