My ex is insane and hired a bunch of evil lawyers out of Denver to make my life hell because her father could pay for it.

I'm glad I found Rick. He knew how the judge was going to rule on pretty much everything and didn't waste my time arguing for stuff he knew I'd never get. At the same time, he knew when the other side was making demands no judge would agree to up here – and played it to our advantage.

I got what I needed and shut down my ex. He was worth every penny.

When I started looking for an attorney, I made an appointment with Rick since he provided a free initial consultation and I had so many questions. I was impressed with his experience, his ability to tell me what my options were AND the likelihood of outcomes if we had to go to court. His whole approach was warm and reassuring and just what I needed for this process.

I'm very happy with the parenting plan and child support he got me. I would definitely recommend him.
