THE SANITY-SAVING SCHOOL ADMISSIONS CHECKLIST™

HERE'S WHAT YOU SHOULD BE DOING RIGHT NOW TO GET READY FOR SCHOOL ADMISSIONS SEASON

JULY

- Create a profile that describes your child as a learner and as a person
- Define the top 5 priorities/values you're looking for in a school
- Describe the ideal learning environment for your child
- Identify your biases and commit to setting them aside during this process so you look for the best school for your son or daughter

AUGUST

- For rising middle or high schoolers, have a conversation with your child about their role in the upcoming admissions process
- Gather the personal materials needed to complete applications (birth certificate, a recent photo, profile, the latest report card, test scores, etc.)
- Use the internet to familiarize yourself with the tests that will be required for admissions*
- Research schools online and track your findings some place you can update and access easily. (I have a tool for this that you can download as a part of our complete checklist.)

* Your child may need to sit for an admissions test. Once you know the dates from your August research, register and add the dates to your calendar.

HOW TO FIND THE BEST SCHOOL FOR YOUR CHILD AND MAINTAIN YOUR SANITY IN THE PROCESS

Hi! I'm Aisha.

You want to find the best school for your child, but other parents' tales of frustration and your unfamiliarity with the process is overwhelming. All you want is to feel confident that you've thoroughly explored every option and chosen the school that's right for *your* child. I can help you do that.

The Informed Parent's Guide to Choosing Schools™ (IPG) is an online course that acts as step-by-step guide to help you make informed decisions about your child's education with guidance from an experienced educator.

One of our greatest responsibilities is to prepare our children for life, and choosing the right school is a big part of that.

This checklist is just one of the tools you'll have access to via the IPG.

- With the IPG, you'll learn how to execute each step of the admissions checklist including:
 - How to build a *complete* profile of your child as learner and as a person
 - How to use that profile to determine fit for your individual child
 - How to get the most out of school visits

I take care of kids by helping their parents make informed educational decisions on their behalf.

Choose the best school for your child. Save your sanity. Let me help.
