

## Asbestos Note - 2016

Racine St. Catherine's has been inspected for asbestos-containing building materials by a State Certified Asbestos Inspector. A written management plan including the inspection report has been submitted to the State of Wisconsin Division of Health and reviewed for compliance with the Asbestos Hazard Emergency Response Act (AHERA) 40 Part 763 effective December 1987.

The management plan describing locations and conditions of known and assumed asbestos-containing building materials is available at the school administrative office for anyone to review. Please contact our Asbestos designated person, Anthony Kaprelian, at (262) 637-1362 for assistance. If anyone requests a copy of the report, we will need the request in writing and a fee for the labor and duplication.

O & M activities will be performed during this school year. Work will be performed by Asbestos certified license contractor (Balestrieri Environmental).

The EPA required three year re-inspection and 6 month periodic surveillances will be conducted by a State Certified Asbestos Inspector from AP Environmental, Inc.
