

Maybe it's too comfortable.

If you own an American Standard furnace, don't be surprised if you suddenly begin to understand the appeal of hibernation. After all, they're economical, so they keep your home nice and warm without the high-energy bills and added expense of those older inefficient systems. And they're built to last, with one of the best warranties in the industry. All of which makes owning an American Standard furnaces the perfect excuse to stay inside until spring.
