

POP MESH QUESTIONS TO ASK YOUR PHYSICIAN

1. Do you plan to use mesh for my POP repairs?
2. How many mesh procedures like mine have you done?
3. What surgical alternatives do I have to mesh for repair?
4. Is there any reason I would be a bad candidate for mesh?
5. Will my POP repair be successful without mesh?
6. How long has the mesh product you use been on the market?
7. How long have you been using this particular mesh product?
8. Is there a chance mesh surgery won't fix my POP?
9. What complications should I be concerned about after mesh surgery?
10. Will my partner be able to feel mesh during intimacy?
11. What are the chances mesh will erode through my vaginal wall?
12. If mesh erodes through the vaginal wall, how do you fix it?
13. If I have mesh complications, will you be able to address them?
14. Can I have access to information on the mesh you will be using prior to having my surgical procedure?
