Your Discharge Planning Checklist:

For patients and their caregivers preparing to leave a hospital, nursing home, or other care setting
During your stay, your doctor and the staff will work with you to plan for your discharge. You and your caregiver (a family member or friend who may be helping you) are important members of the planning team. You and your caregiver can use this checklist to prepare for your discharge.

**Instructions:**

- Use this checklist early and often during your stay.
- Talk to your doctor and the staff (like a discharge planner, social worker, or nurse) about the items on this checklist.
- Check the box next to each item when you and your caregiver complete it.
- Use the notes column to write down important information (like names and phone numbers).
- Skip any items that don’t apply to you.

Use “My drug list” on page 5 to write down your prescription drugs, over-the-counter drugs, vitamins, and herbal supplements.

- Review the list with the staff.
- Tell the staff what drugs, vitamins, or supplements you took before you were admitted. Ask if you should still take these after you leave.
- Write down a name and phone number of a person to call if you have questions.

### Recovery & support

- Ask if you’ll need medical equipment (like a walker). Who will arrange for this? Write down a name and phone number of a person you can call if you have questions about equipment.

- Ask if you’re ready to do the activities below. Circle the ones you need help with, and tell the staff:
  - Bathing, dressing, using the bathroom, climbing stairs
  - Cooking, food shopping, house cleaning, paying bills
  - Getting to doctors’ appointments, picking up prescription drugs

- Make sure you have support (like a caregiver) in place that can help you. See “Resources” on page 6 for more information.

- Ask the staff to show you and your caregiver any other tasks that require special skills (like changing a bandage or giving a shot). Then, show them you can do these tasks. Write down a name and phone number of a person you can call if you need help.

- Ask to speak to a social worker if you’re concerned about how you and your family are coping with your illness. Write down information about support groups and other resources.

- Talk to a social worker or your health plan if you have questions about what your insurance will cover, and how much you’ll have to pay. Ask about possible ways to get help with your costs.
Ask for written discharge instructions (that you can read and understand) and a summary of your current health status. Bring this information and your completed “My drug list” to your follow-up appointments.

Use “My appointments” on page 5 to write down any appointments and tests you’ll need in the next several weeks.

For the caregiver

Do you have any questions about the items on this checklist or on the discharge instructions? Write them down, and discuss them with the staff.

Can you give the patient the help he or she needs?
- What tasks do you need help with?
- Do you need any education or training?
- Talk to the staff about getting the help you need before discharge.
- Write down a name and phone number of a person you can call if you have questions.

Get prescriptions and any special diet instructions early, so you won’t have to make extra trips after discharge.

More information for people with Medicare

If you need help choosing a home health agency or nursing home:
- Talk to the staff.
- Visit Medicare.gov to compare the quality of home health agencies, nursing homes, dialysis facilities, and hospitals in your area.
- Call 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048.

If you think you’re being asked to leave a hospital or other health care setting (discharged) too soon:
You may have the right to ask for a review of the discharge decision by the Beneficiary and Family Centered Care Quality Improvement Organization (BFCC-QIO) before you leave. A BFCC-QIO is a type of quality improvement organization (a group of doctors and other health care experts under contract with Medicare) that reviews complaints and quality of care for people with Medicare. To get the phone number for your BFCC-QIO, visit Medicare.gov/contacts, or call 1-800-MEDICARE. You can also ask the staff for this information. If you’re in a hospital, the staff should give you a notice called “Important Message from Medicare,” which contains information on your BFCC-QIO. If you don’t get this notice, ask for it.

For more information on your right to appeal, visit Medicare.gov/appeals, or visit Medicare.gov/publications to view the booklet “Medicare Appeals.”
Fill out this list with all prescription drugs, over-the-counter drugs, vitamins, and herbal supplements you take. Review this list with the staff.

If you have Medicare and limited income and resources, you may qualify for Extra Help to pay for your Medicare prescription drug coverage. For more information about Extra Help, visit Medicare.gov/publications to view the booklet “Your Guide to Medicare Prescription Drug Coverage.”
