

After extending the current FAA bill for more than five years, Congress has finally cleared a four-year renewal of federal aviation programs, “*advancing a reauthorization to the president’s desk for the first time in nearly a decade.*”

What does this mean for NOISE Member Cities and Airport Adjacent community stakeholders?

Join us **Monday, March 12**, at the upcoming National League of Cities Congressional City Conference at the Marriott Wardman Park in Washington, DC for the **2012 N.O.I.S.E. Aviation Policy Forum** as we discuss the FAA Reauthorization Bill and RNAV implementation, among other pressing aviation issues!

This year’s event will run from 9:00am-12:00pm in the Marriott Wardman "Park Tower 8222".

- ✈ We will be discussing NOISE’s sustained and significant lobbying pressure to ensure the legislation headed to President Obama’s desk represents the interests of airport adjacent cities.
- ✈ We will be discussing the environmental review process for RNAV/RNP procedures and funding levels for the AIP.
- ✈ We will highlight funding levels for research programs that deal with aviation noise impacts on human health and quieter aircraft, among others.
- ✈ Provide more information on the Second Annual Meeting of the Aviation Noise Impacts Research Roadmap (ANIRR) which will be held on April 24-25, in the Washington, DC area – a program created after a significant push from NOISE staff and member city support.

2012 N.O.I.S.E. Aviation Policy Forum

March 12, 2012
