FOR IMMEDIATE RELEASE:

GTC RECEIVES “GENERAL CONTRACTOR OF THE YEAR” AWARD FROM THE ASAC

Golden Triangle Construction (GTC) recently received the “General Contractor of the Year” award from the Colorado Chapter of the American Subcontractor Association (ASAC) in the \$50-100 million category. Having previously won it in 2005, this is GTC’s second time to win this prestigious award from the ACAS, a non-profit trade association representing union and non-union construction subcontractors. GTC was presented with its award at the annual ASAC Industry Award Program, which honors Colorado’s best in the construction industry.

Recipients of the ASAC awards are companies and individuals of the Colorado construction industry chosen by members and partners of ASAC. GTC was selected for the “General Contractor of the Year Award” for being recognized as having “extremely well-managed administrative practices [that] are effective and protective.” In addition, factors such as expeditious payments and adherence to contracts play a significant role in the award decision. ASAC stated that GTC “is reasonable and cooperative with respect to change orders, back charges and complying with the terms of the subcontract. In all respects, the company is understanding, reasonable and fair with its subcontractors and suppliers.”

Golden Triangle Construction (GTC) has been a commercial general contractor in the Colorado Front Range construction market since 1977. For more information, please call Dennis Richard at (303) 772-4051 or email drichard@gtc1.net.
