

COCA 201 | Fall 2017 Assignment 3

Create An Interactive Media Art Exhibit

Based on your chosen design plan, create an interactive art exhibit to be exhibited on a date TBD (likely December 1) for the venue Art and Media Lab in the Isabel.

The following items need to be taken into account:

1. Order your hardware as soon as possible to avoid delays. You have a budget of \$100 per person in lieu of a book.
2. Divide up tasks between group members and make sure everyone contributes their fair share.
3. Plan ahead and do difficult tasks first.

The exhibit needs to have the following attributes:

1. Interactive behavior between audience and exhibit through some sensor
2. Some slight randomness, this could be sensor noise or generated by an algorithm
3. An aesthetic presentation.
4. A message or concept that it conveys.

Due Date: Dec 1, 2017 @ noon setup
Projected Exhibit Time 14:30-17:00

This assignment will be marked during the exhibit by Prof. Vertegaal and the TA.
