Education

Dr. Laura Windsor attended Indiana University and majored in Chemistry before being accepted into the I.U. School of Optometry Early Admission Program where she finished her Bachelor's of Science in Optometry in 1998. She then completed her Doctorate of Optometry in 2001. She was one of 120 selected gifted and talented high school students from across Indiana accepted into the third graduating class at the Indiana Academy for Science, Mathematics and Humanities at Ball State University.

Doctor of Optometry
Indiana University, Bloomington
May 2001

Bachelor of Science in Optometry
Indiana University, Bloomington
December 1998

Indiana Honors Diploma
Indiana Academy of Science, Mathematics and Humanities
Ball State University; Residential Junior & Senior High School
May 1994

Optometric Private Practice

Dr. Laura Windsor is a partner of the Eye Associates Group, LLC/Low Vision Centers of Indiana. She joined her father, Richard Windsor, O.D., F.A.A.O., R. Lewis Scott, O.D., F.A.A.O. and Craig Ford, O.D., F.A.A.O. in practice after graduating from the Indiana University School of Optometry in 2001. Dr. Laura Windsor's practice is very diverse. She provides primary care and low vision rehabilitation for infants to seniors. She also provides neuro-optometric care to patients who have suffered a stroke and/or head injury. She regularly examines low vision and brain injury patients from across the United States and from around the world at the Low Vision Center of Indianapolis. She also specializes in providing quality eye care for children and adults with special needs. She also delivers the much needed eye care to those in nursing facilities including providing low vision care for them.

Primary Care

The Eye Associates practice was founded in 1894 and has always been on the forefront of optometric technology. Over the years, it has received forty one state and national awards. Dr. Laura Windsor's practice has the latest equipment including the Cirrus Optical Coherence Tomographer (OCT), digital fundus cameras, Humphrey Visual Field (SITA-Swap) Analyzers, pachymeter, B scans, and Useful Field of View testing (UFOV) which Dr. Windsor uses to treat and manage patients with glaucoma, diabetic eye disease, macular degeneration and other eye conditions.

Dr. Laura Windsor's computer networking and software knowledge was instrumental in the conversion to electronic health records in her practice over 5 years ago.

Vision Rehabilitation

She provides low vision and neuro-optometric rehabilitation at the Low Vision Center of Indianapolis, the Low Vision Center of Fort Wayne, as well as at the Eye Associates Group, LLC main office in Hartford City, IN.

Nursing Home Care

She also provides primary care at her Hartford City office and has been the Optometric Consultant for over 16 nursing facilities in East Central Indiana since 2001. Dr. Laura began her career with the Eye Associates Group, LLC practice at age 15 working part-time in third party billing, organizing the nursing home program and transcribing reports.

Practice Locations

Eye Associates Group, LLC, 315 Huggins Drive, Hartford City, IN

Low Vision Center of Indianapolis, 9002 N. Meridian St., Ste. 109, Indianapolis, IN

Low Vision Center of Fort Wayne, 6208B N Constitution Drive, Fort Wayne, IN

Nursing Home Program, Eye Associates Group, LLC, 315 Huggins Drive, Hartford City, IN

Post-Doctorate Licenses and Certifications

Indiana License to Practice Optometry, 2001-Present

Ohio License to Practice Optometry, May 2008-Present

Indiana Therapeutics OLD PAC Certificate, 2001-Present

Ohio Therapeutics Certificate, May 2008-Present

Treatment and Management of Ocular Disease Certificate, National Board of Examiners, 2001

Fellowship Honors

Dr. Laura Windsor completed the requirements of Fellowship into the American Academy of Optometry only two years after graduating from Optometry School. Her case studies focused on post-cataract extraction complications, epidemic keratoconjunctivitis, recurrent corneal erosion, the low vision rehabilitation of a patient with albinism and the rehabilitation of a patient with a right homonymous hemianopsia secondary to traumatic brain injury. She was awarded her fellowship at the Academy meeting in Dallas, Texas in December 2003.

Fellow of the American Academy of Optometry, Dec. 2003-Present

Honors & Awards

**Top 20 Under 40
M Magazine**

October 2013

M Magazine selected Dr. Laura Windsor as one of the top 20 leaders under 40 years old in East Central Indiana. They

**National Young Optometrist of the Year
American Optometric Association**

June 2011

The Young Optometrist of the Year Award recognizes a doctor of optometry in active practice less than 10 years who shows remarkable leadership skills when serving his or her profession, patients, and community. Dr. Windsor's work in low vision, her contributions to her profession including her writing of articles and lecturing around the country and her community service were all noted by the AOA.

**President's Citation "Young Optometrist of the Year"
Indiana Optometric Association**

April 2010

At the Indiana Optometric Association's Annual Convention in Indianapolis on April 17, 2010, Dr. Laura Windsor was honored with the President's Citation for being the outstanding Young Doctor of Optometry of the Year. This award is given to doctors who have been in practice less than 10 years and who have demonstrated not only contributions to his or her profession, but also to service on behalf of the visual welfare of the public and service to the community at large. Dr. Windsor was cited at the awards banquet for her many contributions to optometry including her work in low vision rehabilitation and in the application of the Internet and computer technology to aid and educate patients.

Meritorious Service Award, Indiana Optometric Association

April 2010

Dr. Laura Windsor received a Meritorious Service Award for her work on a manual on electronic medical records. She was the primary author on the manual, *Optometric Electronic Medical Records: A*

Step by Step Guide to Selection and Implementation. She used her background and experiences with her own EMR to compose this manual as a guide to other practices. This 70 page manual was given to IOA members and is available through the IOA website.

Blackford County, Indiana “Favorite Eye Doctor”

2003-2010

Dr. Laura Windsor has been selected by the people of Blackford county as their favorite eye doctor for the past seven years. This contest is held annually through the local newspaper, Hartford City News Times, and other businesses in the community.

National Essilor Award, Boston Massachusetts

June 2001

Dr. Laura Windsor was presented this award by Essilor at the American Optometric Association’s Annual Conference in Boston, Massachusetts in June 2001 after graduating from Optometry School. This was a competition among all of the graduating students from Optometry schools around the country. She was awarded this for her use and application of high powered progressive lenses for the treatment of patients with visual impairments.

Essilor “Award of Excellence”, Indiana University

May 2001

She was awarded this honor by her professors at graduation for her clinical and leadership skills.

Indiana University Varilux Student Award

May 2001

Dr. Windsor received the Varilux Student Award at graduation for her work with low vision patients and the use of Varilux lenses to help them.

Award for Outstanding Contribution to the I.U. Optometry Student Body

February 2000

She was awarded a special award for her contributions to the student body including her work on the Future Optometrists website, canned food drive and other projects as Vice President of the I.U. School of Optometry Student Association at the Annual Optometry Formal Dinner.

Gold Medal to AOA for a “How to” Article

June 1999

American Society of Business Press Editors

While still a student in Optometry School, Dr. Laura Windsor co-authored “Weave Your Web: Using the Internet to Market Your Practice” for the *AOA News* in November 1998. It was one of the first optometric articles to advance the use of websites for optometric practices. In June 1999 at the American Optometric Association House of Delegates Meeting in San Antonio, the AOA announced that it was awarded the first national gold medal for an AOA publication article.

Professional Leadership Positions

Dr. Laura Windsor is a Board Member of the Indiana Low Vision Rehabilitation Society. She is currently working on improving the children’s low vision report form that is used by the teachers of the visually impaired around the state. As a student, Dr. Laura Windsor was Vice President and Secretary of the I.U. Student Association. While at IU, she developed and organized a canned food drive for the local food bank.

Optometric Research

Clinical Research Project: Harvard's Multi-Center Study of the EP Hemianopsia Lens 2004-2005
 Dr. Laura Windsor was a clinical researcher for this NEI funded study. This study was done in

conjunction with Harvard's Schepens Eye Research Institute. The results of this study were published in the May 2008 *Archives in Ophthalmology*. Dr. Laura Windsor was among 15 doctors selected by Harvard to study this new lens for hemianopsia. This study showed the clinical efficiency of this new rehabilitation tool for the treatment of hemianopsia.

Bowers, A., Keeney, K., Peli, E. "Community-based trial of a Peripheral Prism Visual Field Expansion Device for Hemianopsia." *Archives of Ophthalmology*. May 2008: Pgs. 657-664.

Special Optometric Activities

Dr. Laura Windsor has an extensive background in writing, website design and content. She designed, updated and maintained the highly acclaimed Future Optometrist website for eight years and was also the webmaster for the Indiana Optometric Association website for three years. She has an extensive writing background and co-authored a comprehensive manual on how to successfully select and implement an EMR system into the optometric practice for the Indiana Optometric Association for which she received the Meritorious Service Award.

Indiana Optometric Association Electronic Medical Records Task Force 2009-2011

Dr. Windsor co-authored a manual on the adoption of electronic medical records into the optometric practice. She has been using EMRs in her practice for 5 years and has extensive background in using and customizing EMR software. This manual goes through how to evaluate, select and implement an EMR system successfully. It is designed to be a comprehensive manual with tips to avoid the major pitfalls that can occur in EMR adoption. This manual, *Optometric Electronic Medical Records: A Step by Step Guide to Selection and Implementation*, is available free to all IOA members and to all non-members via the IOA website.

Indiana Optometric Association Website 2001-2004

Dr. Laura Windsor donated her time and skills as the webmaster for the Indiana Optometric Association website for three years. While webmaster, she updated the pages of the website with new information on upcoming programs, continuing education information and general optometric information. She also managed the members access to the private members only side of the website.

Future Optometrists Website 1997-2005

Dr. Laura Windsor designed, updated and maintained the Future Optometrists website to enhance the optometric education worldwide. This site brought together optometry and pre-optometry students from around the country and world to discuss and educate students in optometry. This website contained discussion boards, links to optometric related sources on the Internet as well as information written by Dr. Laura Windsor. She wrote and published information on common abbreviations, learning retinoscopy, information on performing clinical procedures, and resources on each of the classes in the core curriculum.

It was nationally recognized in both *Optometry Today* and the *Review of Optometry* magazines. This site received over 1.4 million visits a year from students, optometrists, and others from around the world interested in optometry. It won a Featured Site 2000 Award from HealthAtoZ.com in December 1999. This site ran for eight years and Dr. Laura Windsor maintained the site for four years after graduating from optometry school.

Practice Websites and Social Media

Dr. Laura has used her writing and computer skills to help build numerous websites for her practice. These websites help educate the public on areas of low vision including various ocular conditions, low vision rehabilitation, neuro-optometry and bioptic driving. These websites help educate patients, caregivers and professionals about low vision rehabilitation and the ocular conditions. These websites have brought patients from around the world to Indiana for low vision care. Dr. Laura also uses social media including Facebook and Twitter to educate the public.

Published Books and Book Chapters

Dr. Laura Windsor has extensively written on areas of low vision rehabilitation. In 2008, she co-authored three chapters published in the *Eye Care Sourcebook*, which is a library reference book on various eye health topics. This book can be found in libraries across the nation. She also has co-authored a 333 page book on applying Six Sigma and Lean Management Principles to the optometric practice to help decrease complexity and provide better management within the optometric practice. This is a topic that is not covered in traditional practice management books and lectures.

Professional Newsletters

Dr. Laura Windsor is an editor and writer for the quarterly newsletter, *Third Party News*. This newsletter updates Indiana optometrists on insurance issues and changes in Medicare, Medicaid, VSP®, Blue View®, Eye Med®, HIPAA and OSHA. She also writes small articles for the email newsletter as well.

Windsor, L., Windsor, R., Morrow, D., Teagle, S. *Third Party News: A Newsletter for Indiana Optometrist, Featuring Medicare, Medicaid Compliance, Other Third Party Insurances, HIPAA, and OSHA*. Co-Publisher/Editor/Contributor. Published Quarterly, 2001 to Present.

Major Course Manuals

After graduating from optometry school, Dr. Windsor began lecturing and writing for the annual Optometric Compliance Seminar. This seminar has annually over 400 doctors and their staff members attend to be updated on billing, coding and compliance issues on Medicare, Medicaid, VSP®, Blue View®, EyeMed®, HIPAA and OSHA. She has authored and added a section on and how to be OSHA compliant in the optometric practice. Dr. Laura has been the editor of this 300+ page manual for the past two years. This manual is updated each year with all of the changes and additions to third party billing procedures throughout the year. A new complete indexed manual is created each year.

Lectures and Presentations

Dr. Laura Windsor has lectured extensively throughout Indiana and nationally on issues of low vision and stroke/head trauma rehabilitation. She has carried the message of optometric low vision care to rehabilitation professionals, doctors, caregivers and patients. In 2010, she lectured at the Indiana Optometric Association's Spring and Fall Conventions to both doctors and paraoptometric. In September 2008, she was a featured speaker for two lectures at the Envision national low vision conference in San Antonio, Texas where she educated doctors, therapists, technicians, and other low vision professionals on bioptic driving and low vision rehabilitation.

Dr. Laura Windsor has lectured to numerous low vision support groups throughout the Midwest. She also has lectured on both low vision and primary care issues. Additionally, she co-taught the neuro-optometric rehabilitation section of the Advanced Therapeutics Course for several years to the third year I.U. optometry students. In 2003, she co-taught a course on "Vision and Driving" at the IOA Fall Convention. Dr. Laura Windsor lectures annually at the Optometric Compliance Seminar on billing issues, rules and guidelines on supplemental testing, procedure coding, nursing home and hospice coding issues, general lens coding, OSHA, as well as safe harbor and fraud and abuse.

Community Service

Tori’s Butterfly Garden Foundation

2011-Present

After the tragic death of Dr. Windsor’s daughter, Tori, following complications of a routine tonsillectomy, she and her husband founded Tori’s Butterfly Garden Foundation. This is a 501(c)3 non-profit charity in Blackford County. The mission of this charity is to support the fine arts, gardening and nature initiatives in their community. They along with many volunteers and family, have built a memorial community garden which has a large butterfly garden. It also has a vegetable garden where all the produce is donated to the local food banks to help the hungry. This garden is open to the public to enjoy and is just walking distance from a local elementary school. They have also held art nights for children and art in the park day for local families.

Blackford County Special Olympics, County Coordinator

2004-2011

Blackford County Special Olympics, Bowling and Track & Field Coach

2004-2011

Blackford County Special Olympics, Treasurer

2002-2004

Dr. Laura Windsor is one of five children and three of her siblings were adopted developmentally handicapped children. This has spawned her passion to help special needs children and adults both in her practice and outside of it. Upon returning to Blackford County, she helped form the current Special Olympics program. She began as the Treasurer for the group. As Treasurer, Dr. Windsor wrote the grants that resulted in the funding to buy all of the special sporting equipment needed for the Blackford County programs.

Dr. Laura Windsor stepped up to become the County Coordinator/Director for Blackford County in 2004. She is responsible for and organizes all local activities, fundraisers, sporting practices and tournaments. She has organized fundraisers including fundraisers which have made over \$2500 at each event for Special Olympics Blackford County.

She is a certified Special Olympics bowling and track/field coach. During each sporting season, she coaches and trains athletes for four to eight weeks before they compete in local and area competitions. For many years, she and her husband have transported athletes to and from the Area Meets throughout East Central Indiana and the state meets. Dr. Windsor and her delegation have taken Special Olympic

athletes for 4 years to the Special Olympics Indiana State Games in Terre Haute, where they compete against athletes from around the state in doubles bowling and track and field events. Dr. Windsor is not only Blackford's certified bowling and track and field coach, she is also a Unified Bowling Partner and bowls on a team at Area and/or State Meets with Special Olympics athletes.

Tri Kappa Sorority, Corresponding Secretary	2007-Present
Tri Kappa Sorority, Vice President	2005-2007
Tri Kappa Sorority, Member	2004-Present

Dr. Laura Windsor has been a member of Tri Kappa philanthropic sorority in Hartford City for over six years. She has worked to raise funds annually for local and state projects for Tri Kappa's mission of culture, charity and education. She has worked to raise money for local scholarships, help provide Christmas gifts to needy families, provide art awards to talented high school students, award gifted and talented junior and senior high school students, provide Christmas gifts to patients at the Richmond State Hospital, donate funds to Riley's Children's Hospital, participate in the Adopt-A-Highway program and also has helped those battling cancer in the community by helping to pay for medical expenses and transportation costs for treatment.

For the past three years, she has been one of the committee chairperson's for their biggest fundraisers, the Annual Craft Fair, each year in November. Her management and cooking skills have increased their fundraiser profits substantially each year. As Vice President, she was responsible for the scholarship committee and awarding scholarships to local students to go to college and for non-traditional students to return to school. Dr. Laura Windsor currently serves as Corresponding Secretary and is the local writer for the Tri Kappa *Cross Keys*, the quarterly magazine which is mailed to each Tri Kappa member across the state. She has chaired the Christmas Family committee for the past five years where she shops, wraps and delivers hundreds of presents to families in Blackford County. In 2010, she was the chair of the fundraising committee for the Tri Kappa Cancer Fund. She organized and managed an all day scrapbooking fundraiser which raised thousands of dollars for patients in the community with cancer. The Cancer Fund provides gas gift cards to patients traveling out of the county for chemotherapy and/or radiation.

Blackford County Community Foundation, Board of Directors	2003-2012
Blackford County Community Foundation, Grants Committee Member	2003-2012

Dr. Laura Windsor is on the Board of Directors for the Blackford County Community Foundation. She is a member of the Grants Committee for Blackford County where she helps review, discuss and award all Community Foundation grants to various groups and programs to better the community. She has helped secure grant funding for many projects including Blackford Youth Soccer, helping support student trips and educational activities, the Imagination Library program for preschoolers, Montpelier historical society projects, park improvement projects, helping local food banks, etc.

Blackford County School Vision Screening	2001-Present
---	---------------------

Dr. Laura Windsor has provided her services to screen hundreds of school children in Blackford County each year. She has worked with the school nurses to screen children in all of the elementary schools in

the county. Dr. Windsor has just recently written a newsletter for school nurses to educate them on eyecare issues they may see in their school system.

American Optometric Association InfantSee Participant

2005-Present

Dr. Laura Windsor has provided care for infants in Blackford County to promote eyecare and vision wellness in infants through the AOA InfantSee program. As a mother of two young children, she is dedicated to preserving the eyesight of all children and supports and promotes the AOA's goals in the InfantSee program.

Blackford County Health Fair and Screenings

2003-2007

Dr. Laura Windsor has provided free glaucoma screenings at the community health fairs held annually in Blackford County. She joined the local hospital and the Community Foundation in its mission to promote health and wellness in the members of the community. She screened more than 100 people each year for glaucoma using the GDX and educated hundreds in the community on macular degeneration, diabetes and glaucoma. The application of the scanning laser GDX to these screenings greatly increased the accuracy of glaucoma screenings.

Hartford City Senior Citizen's Center Glaucoma Screening

2008

Additionally, she developed, organized and provided the clinical care for the glaucoma screening at the Hartford City Senior Citizen's Center in early 2008. She screened the patients using the GDX and educated them also on macular degeneration and diabetic issues.

Personal and Family

Dr. Windsor was born in Marion, Indiana in 1975 and was raised in Hartford City, IN. She is one of five children of which three are adopted special needs children. In 2000, she married her high school sweetheart, Jeffrey Whetzel. He is the Accounts Administrator at the Eye Associates Group, LLC. Dr. Laura Windsor has three children. Her first child, Tori, tragically passed away from complications of a tonsillectomy in February of 2011 at age six. She has a son, Taylor, 6, and daughter, Ella, 2.

Dr. Laura is an avid heirloom vegetable gardener raising all of her plants from seed each year. She and her family enjoy fishing together during the summer. Additionally, Dr. Laura loves to cook and bake gourmet treats for staff, friends and family.
