SELF-LOVE CLUB

ABOUT

“A piece of the dream...”

From her early experience working at a bead shop near her home in Ontario, Canada to decades of corporate retail visual merchandising experience in New York City, Bunny Shapiro found herself in a full-circle moment settling into the newfound freedom of a lifestyle change in Puerto Vallarta, Mexico.

“It all comes back to beads...”

What started as gifting handmade beaded bracelets to friends and family, expanded into an established jewelry line as the demand for her playful designs grew. After stumbling upon what later became her shop and studio in 2016, she had an official home base for her creations to reach even further. She first partnered with Parisian retailer Collette and has since collaborated with concept stores all over the world including Mira Mikati, The Conran Shop, Kirna Zabete, Clare V, Billionaire Boys Club. Press highlights include Seventeen, Cosmopolitan, The Wall Street Journal.

“It’s always about color...”

Using Japanese seed beads, semi-precious stones and unique accents like flowers, letter beads and charms, her signature wrap bracelets and full range of beaded silhouettes inspire nostalgia, the freedom of expression, and unapologetic joy for all. Everything Bunny Shapiro can be personalized with a variety of customization options. Her designs are easy to style, with endless combinations of layering possibilities. Bunny's hope is that every wearer can take home a piece of her dream, and by doing so, they may be inspired to chase their own.
