

TPC GUIDING MEMBERS DURING COVID-19

LABORATORY

TPC's commitment to its Member family hasn't wavered in the face of the COVID-19 pandemic. From provision of needed supplies to member forums and more, TPC Members have found unmatched support throughout this period of uncertainty.

TPC has provided critical support via its laboratory team:

- ✓ Met bi-weekly with Member representatives of the Laboratory Clinical Value Analysis Team
- ✓ Provided COVID-19 contingency and lab response consultation
- ✓ Vetted and recommended lab products for Members with deficient supply
- ✓ Helped Members secure additional blood supply
- ✓ Outlined regulatory polices and processes for Members
- ✓ Developed reopening test volume forecasting tool
- ✓ Strategized for reopening, test availability and lab response

These efforts were part of a holistic response aimed at helping Members through the unprecedented time. We are proud to see the TPC Member family achieve significant progress – together.
