## **RECORDING ARTIST LYDIA CAESAR ANNOUNCES NEW PARTNERSHIP WITH SONY RED DISTRIBUTION AND NEW SINGLE "THROUGH IT ALL"**

We are pleased to announce that recording artist Lydia Caesar has partnered with **Whatevaok Ent/Red Music** (a division of **Sony Music Entertainment**) and has released her new single **"Through It All"** on 6/9/2015 via their distribution system. **"Through It All"** is a rhythmic, soulful record that will immediately take you back to the Motown Era of Classic Soul.

Prior to the official single release, **"Through It All"** was placed in the **Lionsgate** film **"I Really Hate My Ex"** released on 4/14/2015. The movie was written and directed by the incomparable **Troy Beyer** and is currently available on all digital outlets and where DVD's are sold.

To create the melodic soul of **"Through It All"** Miss Caesar teamed up with one of her frequent collaborators; the super production team **"Grand Staff"**, whom have worked with artists such as **Chris Brown, J Cole, Wiz Khalifa, Jim Jones, Ryan Leslie** and more.

Lydia Caesar has an undeniable talent drawing in fans and supporters as an artist. After the release of her debut album, Lydia Caesar has spent the last two years making a name for herself in the competitive music scene in New York City. Independently her hard work has afforded her two music videos on 106 & Park, a live performance on Fox news, song placements in movies and some major performance opportunities. One of the most notable of those opportunities being the ASCAP Centennial Awards this past November 2014 where she performed on the same stage as the great **Stevie Wonder**.

Keep an eye out for updates from **Miss Lydia Caesar**.
