Decorative art studies include, but are not limited to textiles, interior design, tapestry, pottery, and glassmaking.

Work may be created both within and outside the classroom. The judges will look for originality, skill and technique and evidence of an emerging personal/artistic vision and style.

Originality

In all genres, judges will look for works that reveal an original approach to process, conception and subject matter. Exploration with materials, techniques, and/or themes, should reflect the input of the student in the creative process. Demonstration of investment of thought and decision-making should be evident.

Skill and Technique

A certain level of technical proficiency will be expected. This level will be determined by the medium and by the quality of the overall group of work submitted for adjudication. Judges will look for technical competencies as required to successfully execute a work in a particular medium. In addition, the judges will look for inventive application of techniques and will be sensitive to works which demonstrate the artist's willingness to take risks and to experiment with materials, form and content.
