

HEALING ME

There's only a few I will ever let in, I will ever let in.
There's only a few who will ever know the truth, who will ever know the truth.

Everyone says talk about it,
but every time I open my mouth
it all gets twisted up on its way out.
Every time you come around,
you're feeling like my home now,
I feel like I can let my hair down.

There's only a few who will ever climb these walls,
who will come and scale these walls.
And there's only a few who will push me til i break,
who will love me til I break.

Everyone says talk about it,
but every time I open my mouth
it all gets tangled up on its way out.
Every time you come around,
you're feeling like my home now,
I feel like I can let my hair down.

Oh it comes so naturally,
sit down beside me,
you don't have to say a thing.
Oh it comes so easily,
so comfortably, its healing me.
