

November 30, 2015: Data Analysis (Cara Farber On-Site)

Goals: Teachers will review data analysis tools and procedures to best utilize student data from baseline and recently completed STEP Round One.

Please bring the following to your session:

- Computer or other note-taking tool
- Access to your class' DMS roster
- Students' STEP assessments

In your session, you will complete the following deliverables:

- An anonymous feedback form that METIS' will use for their program evaluation.
- An anonymous online feedback survey for STEP
- For each session, participants will identify two – three ideas for small group reading interventions based on an analysis of STEP data.
