

1933 FORD 40 SERIES SEDAN \$89,000

This car was professionally built for performance, road handling, comfortable, reliability, and most of all safety, and achieves these objectives by the following. The 425 HP, 365 CI small block, 4 bolt main Chevrolet engine has been balanced, aligned honed, blue printed and the decks have been planed to O tolerance which provides 260 horse power the rear wheels at 4200 RPM on 93 octane gas. A B&M, Chevrolet, 700R4 transmission that has been tweak with 26 modifications to provide excellent acceleration. The WILWOOD break system with 4 piston calipers; 11 inch vented disks front and rear, and a corvette duel-master cylinders stops this car on a dime. The low center of gravity provides excellent handling and a very comfortable ride that are provided by a Total Cost Involved rolling chases with stainless steel independent suspension in the front and CWI jaguar chromed rear with 350 9" ford gears in the rear, along with sway bars front and rear. The weight of this vehicle is 3200 LB equally distributed between front and rear, further enhancing the handling and comfort of the ride for this car. The entire exhaust system, the gas lines and the brake lines are all polished 360 stainless steel, and the drive shaft is polished aluminum, which will never have to be replaced. The Body is a fiberglass exact copy (except for the modifications made) of a 1933 ford manufactured by Redneck Corporation. The wood dash and wood veneer around the windows are quilted—western maple. Bobby Griffin seats upholstered with leather and vinyl provide a very comfortable place to sit for long periods. The stereo system has 10 speakers and a 6 CD player. This car is very comfortable and reliable over long distances. The cruise control makes long distant driving more enjoyable. There were 2,300 hours of fabrication time and 200 hours of machinist time spent building this car. This does not include time in the paint shop, upholstered shop or other manufacturer facilities. Pictures and comments on this car have been in Street Scene twice and Redneck Corporation is using pictures of this car for advertisement. **Clyde (240)460-9084**
