Videos (continued)

- “POLST: Doing It Better”
This video is an educational tool that describes POLST, clarifies which individuals POLST should be offered to, emphasizes best practices for POLST and corrects some common misconceptions. DVDs can be ordered at www.oregonpolst.org/order.
- “POLST: When Advance Directives Are Not Enough”
This video tells the story of Max and his family. When Max was confronted with difficult decisions about the care he wanted in the face of his advancing illness, he took comfort in the fact that his wish for a peaceful, natural death was clearly documented in an Advance Directive. Tragically, Max and his loving family discovered that the Advance Directive did not ensure that these wishes would be honored at a time of medical crisis. The video demonstrates the importance of POLST programs in these situations.
- “POLST: What’s New and How Can We Do Better”
This is a webinar presented by the Patient Centered Primary Care Institute on 3/18/15. Dr. Tolle presented along with Joyce Hollander-Rodriguez, Gary Plant, and Lyle Flannigan on use of POLST in Primary Care.
