**REGI TO BUILD NEW WILDLIFE REHABILITATION CLINIC, ANTIGO, WI**

Antigo, WI, August 1, 2018 - The Raptor Education Group, Inc. (REGI) cares for 800-900 injured and orphaned bird patients each year, including approximately 100 Bald eagles and endangered species.

The new Clinic will include separate rooms for patient examinations and housing for different bird species, a quarantine room, a separate space for food preparation, and an x-ray room. In addition, the larger space will more easily accommodate summer interns during their training, and medical experts during their visits.

Fundraising has already begun with \$30,000 in seed money. REGI staff will organize fundraisers, write grants, and appeal to their Facebook community through a GoFundMe campaign (<https://www.gofundme.com/wildlife-rehabilitation-clinic>). The project is anticipated to cost \$175,000.

Interested parties can follow our updates at our website: [www.raptoreducationgroup.org](http://www.raptoreducationgroup.org) or contact Terri Johnson at [terri@raptoreducationgroup.org](mailto:terri@raptoreducationgroup.org).
