FOR IMMEDIATE RELEASE

Dr. Christina Magill Brings Specialist Care to the Valley
New Office Provides Comprehensive Care for the Head, Neck and Face

Wasilla, Alaska – Christina Magill, MD, is now serving patients of all ages in the Mat-Su Valley at her newly opened office in the Providence Health and Service Building at 2250 S. Woodworth Loop, Suite 101 in Wasilla.

Dr. Magill, of Alyeska Center for Facial Plastic Surgery and ENT, provides specialist care for all areas of the head, neck and face. She offers comprehensive ear, nose and throat evaluation and treatment in addition to head and neck surgery. She also performs nose, ear, eyelid, and sinus procedures. She is highly experienced in facial surgery, including skin cancer removal and treatment, facial cosmetic and reconstructive surgery, and non-surgical facial rejuvenation.

Dr. Magill utilizes the most advanced, state-of-the-art treatments, such as CO2 laser skin resurfacing. Her Ultrapulse CO2 laser is currently the only one of its kind in the state, and she is the only physician in Alaska offering unique Total FX skin treatment. Total FX laser treatment reduces facial wrinkles and skin irregularities with precise, concentrated beams of light that rejuvenate skin layer by layer.

Dr. Magill is board-certified in otolaryngology (ENT), head and neck surgery, and has achieved subspecialty training in facial plastic, cosmetic and reconstructive surgery. She attained her medical degree from the University of Washington, and completed a residency in ear, nose and throat surgical subspecialty training at Washington University in St. Louis. She completed two fellowships, including training in peripheral and cranial nerve regeneration, and in facial plastic and reconstructive surgery. She has also published numerous articles and chapters on facial reconstructive and aesthetic procedures.

Dr. Magill, who knew she wanted to be a doctor since the age of 6, grew up in Alaska, living here from 4th grade through high school. She also knew she wanted to return to her home state, which she did in 2012 when she joined Alyeska Center for Facial Plastic Surgery and ENT. She resides in Anchorage with her husband and child.
