

**Ready To Spill - Learson**

This is my first time, I thought you should know  
Just in case you expected something different  
And if I'm acting a little bit nervous  
I'll try my best to keep it all inside

Where do we begin? I've only read it in books  
Put one foot forward bring the other behind  
I hope you catch me if I stumble and fall  
If we start running you can keep the pace

And now that we have run this far  
It's time to send home all the guards  
So I can tell you the fears I have  
And we can turn them into laughs

This is the first night I've had in a while  
Where I wasn't impaired, I actually cared  
A rare moment in life when I wasn't a wreck  
To let the bottle do the talking or decide how to act

And if you're asking me what's happening next  
I'm so unsure I'm scared to project  
Maybe one good year is all that I got  
Maybe what I'm searching for, is never enough

And I'm waiting for you to freak me out  
Are you building me up just to bring me down  
I ready for the axe to fall any time  
Do it again and again and again until it feels right

Falling down, *getting up*  
Falling down, *getting up*  
Falling down, *getting up*  
Falling down, *getting up*  
Falling down, *getting up*  
Falling down, *getting up*  
Falling down, *getting up!*

I'm out of touch, *with reality*  
For minutes hours, *days and weeks*  
In a room, *draw the shades*  
Under covers, *misbehave*

I'm getting off, *off the hook*

She's got the walk, *she's got the look*  
Can't get away, *don't wanna go*  
Take it fast, *take it slow*

Yes you're the best, the best there ever was  
Quite the I picked you out, *quite the find he picked you out*  
Yes you're the best, the best there ever was  
Quite the I picked you out, *quite the find he picked you out*

Fall asleep, *waking up*  
Fall asleep, *waking up*  
Fall asleep, *waking up*  
Fall asleep, *waking up*  
Fall asleep, *waking up*  
Fall asleep, *waking up*  
Fall asleep, *waking up!*

I can't remember, *days*  
I can't remember, *places*  
I can't remember, *times*  
I can't remember, *places*

But I remember you  
Every single move  
It's easy to forget  
The things that we said

There's nothing left to loose  
Nothing left to prove  
Two become a pair  
I'm putting it out there

And no one's gonna claim me for their own and  
I'm getting too old to be acting so young  
My cup's getting full and it's ready to spill  
And I'm sick of the tears and I'm ready to kill

Though I'm feeling empty and I'm dying inside  
Do it again and again and again and again  
Do it again and again and again and again  
Do it again and again and again again until it feels right
