

Catch Her in the Red - Zarick

When will you plan your return
for me, from outer space?
Where will you stand when you land on me?
I can't resist you, come

Catch me crazy when I'm movin' outside
Catch me crazy 'cause I'm still alive for you
so now I want you back
Catch me dancing when I'm throwin' down lines
Catch me crazy when I'm still inside of you
You can't resist my attack

Farewell old friend
we're closing in on the target space
Farewell old friend

we're closing in on the target race

When will you plan your attack
on me, from outer space?
Where will you stand when you command
the entire race?

Catch me crazy when I'm movin' outside
Catch me crazy 'cause I'm still alive for you
so now I want you back
Catch me dancing when I'm throwin' down lines
Catch me crazy when I'm still inside of you
You can't resist my attack

Farewell old friend
we're closing in on the target space
Farewell old friend

we're closing in on the target race
