

**Diver** - *Zarick, Carter, Learson*

Don't make me worry up all night  
with visions of you in my mind  
from pictures that I saw online  
Just lie to me and say you're mine

I wonder where you'll go today  
Nonchalantly slip away  
As long as you know what to say  
Just lie to me and say we're fine

After all we've been through  
I'm never gonna turn away or turn back  
You're a diver and you're going down  
with me into the black

We all have problems, it's okay  
You handle yours a different way  
Entice me when you do cocaine  
but get high with me another day  
You tell me not to close the door  
Spread your wings out on the floor  
Showing me what love is for  
by calling me a different name

After all we've been through  
I'm never gonna turn away or turn back  
You're a diver and you're going down  
with me into the black
