For Clinicians & Team

Sleep Disorders Dentistry

Dental Sleep Medicine

"I have been practicing Sleep Disorders Dentistry for over 20 years. As Clinical Director, I have drawn from this experience to create these programs, designed to help you become a competent Sleep Disorders Dentist and to create a Staff-Driven Sleep Disorders Dentistry Practice."

John Viviano DDS D ABDSM

- **Learn why you should add Dental Sleep Medicine to your practice.**
- **Learn Evidence & Guideline Based Protocols.**
- **Learn how Your Team can add this therapy into your daily practice.**
- **Learn how to handle the most difficult of cases with combination therapy.**
- **Learn evidence based TMD and Occlusion.**

"I feel confident that I can implement a sleep dentistry program in my office after attending this residency and I have zero experience prior to attending."

Shawn Van De Vyver DDS - Royal Oak , MI, USA

"I was unsure about committing to a 4-day Mini Residency on sleep dentistry initially. This course far surpassed my expectations! Dr. Viviano presented a thorough course complete with detailed forms and information to help implement this modality into my practice immediately."

Gary Klein DDS - Toronto, Ontario, Canada

"Very engaging speaker. Course content is so relevant to any general practice and will allow you to offer sleep dentistry to your patients immediately."

Janice Lee DDS - Mississauga, Ontario, Canada

"This course is a must for anyone who is seriously considering treating this serious medical condition with oral appliances. Dr. Viviano is a captivating and very knowledgeable speaker."

David Stern DDS D, ABDSM – Richmond Hill, Ontario, Canada

Great course, much better than the other courses I have taken in this area. If someone asks which sleep course to take, it would be this one hands down.

Jonas McCall DDS - Muskogee, Oklahoma, USA

I've taken numerous courses in Sleep Medicine Dentistry and this Mini Residency filled in the gaps in my knowledge. Excellent speakers who are leaders and giants in this field. Love Callie and Elaine! I'm very impressed that John Viviano got differing (oppositional) views to speak together. It's refreshing to see experts acknowledging each other.

Andrea Ho-Fatt Wang DDS - Markham, Ontario, Canada

Sleep Disorders Dentistry Research & Learning Centre
5045 Orbitor Drive Unit 10-300
Mississauga, Ontario L4W 4Y4
