

Sleep Disorders Dentistry Advanced Sleep and Pain

"This is a unique program. The small class size allows for an in-depth, interactive environment that facilitates attendee participation including case presentations. Practical applications of patient pain management in sleep and with co-morbidity management, and an honest look at occlusion and occlusal myths. Recommended for those practitioners who are already practicing dental sleep medicine."

Dr. Barry Glassman

ATTENDANCE LIMITED

2-Day Program - 14 CE Credits

February 22-23, 2019

Reg./Breakfast 7:30 am
Course 8:00 am - 4:30 pm
