

THE TALON TIMES

VOLUME 10, ISSUE 1

September 2016

In the Beginning There was Training

We're back! We've stayed busy since winning the entrepreneurship award at the worlds level. Along with taking inventory, we fixed our Frisbee Launcher Bot, worked on our T-Shirt Launcher bot, and ran a booth for Science Matters at the Science Museum of Virginia's "Maker's Fest". We also elected our new leadership positions and bid our final farewells to our senior member. Our season started with a massive influx of prospective members, the most our team has ever had! As of now we're busy training and preparing our new members for the intensities of the season ahead of us.

A Message From our Leader

Old Tricks, New Team

This year's group is shaping out to be fantastic already, the new members are excited to begin working in their respective subgroups. Although, it is going to be a rough year with the so many senior leads leaving the team, I have high hopes that we will do amazingly at the competitions.

-Andrew Miller 2016

TALON Files

Rookie Files

When I first saw I was a part of CAD, I couldn't wait to start! Throughout the first day on robotics, I learned so much with the help of our great leadership. I am so glad I joined Talon 540 and I know I will continue to grow and learn in this great subgroup!

-Eleanor Miller 2016

Quotes From a Returning Member

This season started off with a blast! I was shocked to see how many rookies we had, and excited to finally get the chance to train them. I'm looking forward to this season because our team is looking bigger and better than it ever has.

-Noah Rogg 2016

Upcoming Events

- November 7th - Rumble in the Roads at Menchville High School
