

Your Most Valuable Partner in the financial equipment industry

Refurbishment by MVP

Quality

MVP offers the highest quality refurbished ATMs on the market. MVP Refurbished ATMs provide the best functionality, are easy to service, maximize uptime and last longer than our competition's "refurbished" offering. Our certification process is rigorous and built to ensure the same high quality in every refurbished ATM we produce.

Low Cost

Take advantage of MVP's expansive and volume discounted ATM purchasing channel for incredible savings on refurbished ATMs. Offer full functionality through your ATM channel to your customers or members at a fraction of the cost of buying new ATMs. Industry research shows that buying refurbished ATMs saves on average around 40% as compared to new. The cost savings can be filtered down to your customers or members by offering additional valued services.

Functionality

All MVP Refurbished ATMs can be configured for standard functionality (cash dispense, envelope deposit taking, etc.) to higher end components including deposit automation, Windows 7 ready, EMV compliant, PCI compliant and other security enhanced features.

Flexibility

Buying MVP refurbished ATMs allows you to buy what you need as needed. If you need an ATM but are not ready to support the latest and greatest technology, rest assured that our refurbished ATMs will be fully upgradeable later on with refurbished components at a lower than market upgrade cost.

Your Most Valuable Partner in the financial equipment industry

Refurbishment by MVP

Efficiency

MVP is continuously able to support customers with quick install deadlines by having available stock of ATMs ready for refurbishment. Our standard lead time is 4-6 weeks per refurbished ATM. This is fast by comparable standards but we can even do better in most cases.

Support

Our 180 day warranty is unmatched, eliminating any lapse in service that could lead to additional cost.

Environment

Reduce your carbon footprint by purchasing refurbished ATMs but choose your vendor wisely. Not all refurbished ATMs are built the same. MVP Refurbished ATMs offer the highest quality, lowest price, quickest lead time and best support in addition to embracing the Three R's – Reduce, Reuse & Recycle.

No matter the size, FI's large and small can benefit by purchasing refurbished ATMs to expand their ATM fleets. Buying MVP Refurbished ATMs enables your FI to be on the cutting edge of service and technology while lowering the environmental impact and saving money. It is undoubtedly a better return on investment.
