Frank also stated that even though he is retiring a little earlier he will receive a 10 year pin. Frank presented Don with his 10 year pin and a photo was taken with Frank, Don and Brian Brewer. Brian expressed his gratitude toward Don and James and stated they are great examples of the long term employees that are assets to the District. Diane stated that Don started as an Access Driver, moved to Paratransit Dispatcher and is now a Mainline Dispatcher.
Frank Squires stated he, Shoun Reese and Steve Schoeffel have been attending the ward meetings throughout the city. Frank mentioned that they have been going well and they haven’t gotten a lot of questions directed toward SMTD. He stated that there haven’t been any negative questions regarding the District.

Frank wanted to discuss special service related to the holiday season. Shoun Reese explained that SMTD receives Small Transit Intensive Cities (STIC) Dollars. She stated STIC is for populations under 200,000 that are meeting benchmarks as if they were in a larger urbanized area. She stated that every benchmark that SMTD meets they could get up to $188,000 additional federal dollars for capital projects. She mentioned that there are six performance categories. Shoun also stated that between 2012 and 2017 SMTD met one benchmark each year, and in 2013 and 2014 SMTD met two benchmarks. She mentioned that STIC dollars fluctuate but in 2013 and 2014 SMTD meeting those benchmarks resulted in an additional $279,000 in capital dollars. She stated that in 2017 SMTD was 1/10th away from vehicle revenue mile benchmark and 6/10th away from passenger trips benchmark. Shoun stated that anytime SMTD does any extra or special service it helps to meet these benchmarks. Steve Schoeffel stated that he goes to Downtown Springfield Inc (DSI) traffic and safety monthly meetings. He mentioned that DSI has been asking SMTD to be a part of their holiday walks and that DSI will be spending advertising dollars. Steve provided the board with handouts that give an idea of what costs would be and the logistics of when DSI would like SMTD to participate. Diane Townsend said she believes SMTD should address special service more. She added that many other transit districts have special service and it may help reach a different kind of rider than the normal riders. She also stated that this would be a good example of how public transit does support the local economy. Frank said SMTD was hoping to absorb the cost of the fare and it would be free for riders for this service. Frank said he will contact each member this week for their thoughts. Frank stated that the Christmas bus would be on display but not actually providing the service. Brian Brewer stated that he encourages everyone to go ahead as it is a good way to give back to the community and get some exposure.

Diane Townsend wanted to discuss about the line of credit increase and the approval of the authorizing resolution for FY18 downstate operating grant. Diane said that in that grant there is a line item for debt service for purchasing 5 new buses. Diane would like to be aggressive when using this debt service line. She stated that they used it last year for a new HVAC system. Diane stated she is asking to increase the line of credit to do this.

SMTD currently has 1.5 million dollars with a maturity date of July 17, 2018 and they have asked the bank to increase that to 3 million dollars and she stated it sounds like the bank would be okay with that as long as they got them a copy of the preliminary audit report. Diane did say they were going to be very aggressive in using the debt service line in the downstate operating grant which is why they are asking for the increase.

Karen Hasara asked if they have used a line of credit. Shoun stated they did it for HVAC. Diane said with downstate operating grant you have to have a line of credit. Brian asked if the line of credit was secured or unsecured and Diane responded that it was unsecured. Brian followed up with asking if they have the ability to secure it and get a lower rate.
