CARD Presentation on:
Social Motivation of Students/Young Adults with Autism Spectrum Disorder

Thinking Differently: Social Cognition and Social Motivation of Students with Autism Spectrum Disorders is a training that will assist in learning about ongoing research regarding the way individuals with ASD process social information and engage socially. How a student processes information can lead to challenging behaviors, impacting his/her learning. Intervention program and strategies used to teach adaptive skills to replace the challenging behaviors will be presented.

*July 10th, 2017 5:30pm-7:30pm*
